Note: Closing price as on 7th July, 2021

India economic recovery to pick up pace in July – The month of June witnessed sequential recovery in economic activity with gradual reopening across regions. This is seen in some of the indicators like mobility and recovery in June e-way bills generated, from the lows seen in May. With infection rate staying low (positivity rate of 2.4%, June-end) despite the unlocking, we believe that the economic activity should return to levels seen in January as we progress through July. Although the same is not yet reflected in the Manufacturing and Services PMI numbers for June. Services PMI contracted and registered the fastest rate of reduction to 41.2 (vs. 46.4 in May). Manufacturing PMI came in at 48.1 in June, below 50 for the first time since July 2020 owing to intensification of the pandemic and its impact on demand. However, next month's numbers are likely to move towards the neutral level.

Demand recovery and lower impact of the third wave to lend support – The June auto numbers and channel checks for consumer segments points that demand has recovered to some extent. Wholesale Auto numbers were ahead of expectations, retail registrations were up strongly on MoM basis and initial part of the month saw traction in sales for consumer durables. The timing of the third wave in India is predicted between August-October 2021 by various medical experts which provides some breathing room. The vaccination pace has already picked up with 19.7%/4.2% of population partially/fully vaccinated as at June-end, up from 12.1%/3.1% at the end of May. We expect this to improve to 42.5%/23% by Mid-September which will place us well for the festive seasons.

India Inflation is up but will be transient – The rising inflation, which was ahead of RBI's target band is causing concerns. The May CPI (reported in June) rose sharply to 6.3% YoY and 1.6% sequentially and Core Inflation was up 6.5% YoY and 1.5% sequentially. Core Inflation was broad based while headline inflation was led by Food inflation. We believe that large part of this due to global reflationary pressures on account of supply chain related issues. We believe that given the focus on growth, the RBI would maintain the accommodative stance for the next quarter.

Global cues remain strong— The US economy continues to gather momentum and inflation numbers have been ahead of Fed's targeted range. However, the same has been on account of the 2<sup>nd</sup> and the 3<sup>rd</sup> round of stimulus, effects of which are expected to wear off by Sep'21. Apart from strong demand, supply side constraints have led to increase in inflation at US and at global level. PMI numbers for major economies are strong and with easing of supply chain restriction, and hence inflation levels are expected to normalize over the course of 2021 as low base effect of last year wears off. We do not foresee any immediate action by the Feds that would be detrimental to emerging economies.

#### **IDFC First Bank**

- The Ability to raise sufficient liquidity at Low cost would be The Key criteria for banks to navigate the current situation, as asset side inflow would be limited. IDFC Fist Bank, Post management change has clearly outperformed in building liability franchise and retail lending.
- Since new management took charge, every qtr. liability franchise has been strengthened. CASA ratio improved from 10.4% in Q3FY19 to ~43% In Q4FY21. NIM's have also been stable for the bank despite interest reversals in Q4FY21. Moreover, the bank is back on the growth path driven by strong growth in Retail AUM.
- The Bank had raised Rs. 3,000 crores of fresh equity capital during April 2021. Post the capital raise, the company will be able to continue expanding its high margin retail business aggressively.

### **Federal Bank**

- Federal bank is one of India's largest old generation private sector banks. At the end of FY2021 the bank had total assets of Rs. 1.9 lakh cr. with deposits of Rs. 1.56 lakh cr. and a loan book of Rs. 1.2 lakh cr.
- NPA's have remained steady for the bank over the past few years with GNPA for Q4FY21 at 3.41% while NNPA ratio stood at 1.19%. PCR at the end of FY21 stood at ~65% which we believe is adequate. Total restructured book stood at Rs. 1409 crore at the end of Q4FY21. This is against earlier expectations of total restructuring of Rs. 3,000-3,500 crore.
- The company has posted a decent set of numbers for Q4FY21 as the loan book grew by 7.9% YoY led by strong growth in retail portfolio. NIM's for the quarter was up by 1bps QoQ to 3.23% while NII grew by a strong 16.8% YoY to Rs. 1,437 crores.

### Suprajit Engg.

- Suprajit Engineering (SEL), is the largest supplier of automotive cables to the domestic OEMS with presence across both 2Ws and PVs. Over the years, SEL has evolved from a single product/client company in India to having a diversified exposure which coupled with its proposition of low-cost player has enabled it to gain market share and more business from existing customers.
- SEL has outperformed the Indian Auto industry in the recent years (posting positive growth vs low double-digit declines for the domestic 2W and PV industry in FY21). The company believes that consolidation of vendors and new client additions would help in maintaining the trend of market/wallet share gains.
- SEL has grown profitably over the years and as a result boast a strong balance sheet (net cash). We believe SEL is prime beneficiary of ramp-up in production by OEMs across the globe and is well insulated from threat of EV (is developing new products). Its premium valuations are justified in our opinion owing to strong outlook and top-grade quality of earnings.

## **Escort Ltd.**

- Escort is a prominent tractor player domestically with market share of 11.3% for FY21. The company's brand of tractors is particularly strong in the northern as well as the eastern belt of India.
- Considering record food-grain procurement by government agencies as well expectation of good Kharif crop in 2021, we expect the tractor industry will continue to outperform the larger automobile space in FY22 with Escorts being a key beneficiary.
- Escorts in the recent past has also entered into a strategic partnership with Kubota Corporation of Japan (one of the global leaders in farm machinery and implements), which provides further visibility of growth for the company, going forward.

### **GNA Axles Ltd**

- GNA Axles is one of the leading suppliers of rear axles to the Auto industry. The company is a major supplier of rear axles to the CV industry and is expected to be one of the biggest beneficiaries of the revival in the CV cycle. The company derives 60% of its revenues from exports while the balance 40% of the company's revenues comes from the domestic markets.
- GNA is expected to be one of the biggest beneficiaries of strong growth outlook for truck sales in US and Europe markets which are witnessing strong recovery in demand. US which accounts for almost 40% of the company's revenues has been registering strong class 8 truck sales.
- The venture into the SUV axle would provide the company with new growth avenues while the recovery in the domestic CV cycle also bodes well for the company. At current level the stock is trading at a P/E multiple of 11.8x FY23E EPS estimate of Rs. 39.

# Ashok Leyland Ltd.

- The Ashok Leyland Ltd (ALL) is one of the leading player in India CV industry with a 32% market share in the MHCV segment. The company also has a strong presence in the fast growing LCV segment.
- Demand for MHCV was adversely impacted post peeking out due to multiple factors including changes in axel norms, increase in prices due to implementation of BS 6 norms followed by sharp drop in demand due the ongoing Covid-19 crisis. While demand for the LCV segment has been growing smartly post the pandemic, demand for the
- MHCV segment has also started to recover over the past few months before the 2<sup>nd</sup> lockdown while demand for buses are expected to remain muted due to greater preference for personal transportation. We believe that the company is ideally placed to capture the growth revival in CV segment and will be the biggest beneficiary of the Government's voluntary scrappage policy and hence rate the stock a BUY.

# **Galaxy Surfact.**

- Galaxy Surfactants is a market leader in Oleo-chemical-based surfactants, which is used in personal and home care products including skin care, oral care, hair care, cosmetics, toiletries and detergent products.
- The company has been increasing its share of high margin specialty care products in its' portfolio which now accounts for ~ 40% of its' revenues while the balance is accounted for by the performance surfactant business. Company has very strong relationships with MNC clients like Unilever, P&G, Henkel, Colgate-Palmolive and supplies raw materials to them not only in India but also in the US, EU and MENA region.
- Though the company's operations were impacted due to the Covid-19 outbreak in FY21 we expect revenues to register a strong growth from FY22 onwards given the company's exposure to the personal and home care segment and recovery in the specialty segment. We are positive on Galaxy Surfactant and recommend a BUY with a target price of Rs. 3594.

# **Apollo Hospital**

- Apollo hospitals is the largest private healthcare company in India. Company having 44 owned hospitals with Operational beds of 7500+. Company major revenue comes from Tamil Nadu and Andhra Pradesh region with 39% and 19% respectively.
- Better than expected recovery in revenue post Covid hit in Q1FY21. In Q3FY21 revenue was at 85% of pre Covid levels, we expect this quarter revenue to reach above pre covid levels. We expect occupancy levels and LOS to increase further in FY2022. Company having capacity of 10300+ beds out of which 7500 beds are operational only, if expect these beds to come in operation soon and start contributing in revenue.
- As daily covid cases are on the up move, this will increase the occupancy levels
  of hospitals and along with this pharmacy to do better than market
  expectations.

# **Carborundum Universal**

- Carborundum Universal (CUMI) is part of the Murugappa group and is a leading manufacturer of abrasives, industrial ceramics, refractories, and electro minerals in India having application across diversified user industries. The company is expected to benefit from improving demand scenarios across its end user industries such as auto, auto components, engineering, basic metals, infrastructure, and power.
- While demand from the Auto sector has been good and we expect demand from metal industry pick up given increased economic activity. The company has posted a robust set of numbers for Q4FY21 with revenues increasing by 27% YoY to Rs. 757 crore driven by domestic growth.
- Overseas operations recovered in Q4 and operations are expected to be at normal levels. EBIDTA for the quarter was up by 55% YoY to Rs. 158 crore while EBIDTA margins also improved to 20.9%. Adj. Net profit for the quarter was up by 18% YoY to Rs. 111 cr.

# **Jindal Steel**

- Jindal Steel & Power Ltd. (JSPL) is one of India's largest Iron & steel companies with an installed capacity of 8.6mn Tonne at the end of FY2021. Global steel cycle has turned around due to normalization of demand in developed economies due to reopening of the economies.
- This has led to significant increase in demand for steel which in turn has led to record high international steel prices. Moreover, China's focus on limiting domestic production and removing export rebates for various categories of steel has also led to fall in Chinese exports which has led to lower domestic prices in China but has led to firming of international steel prices.
- JSPL has posted a very strong set of numbers for Q421 due to firm domestic prices and availability of low cost iron ore from Sarda mines. The company has also been deleveraging its balance sheet with net debt expected to come down to ~Rs. 12,600 cr by FY2022 which should lead toa rerating in the stock. At current levels the stock is trading at EV/EBIDTA of 4.0xFY2022 EBIDTA and offers value given the upturn in global steel cycle.

# Godrej Propert.

- Godrej property are amongst India's largest developer by residential sales. As of 31st March 2021, the company has a total salable area of 187 msf in total 85 different projects across India. Company has done a pre-sale of 4.17 msf in Q4FY21 up by 16% and booking values of ₹2632 crores up by 10%. Company received a very good response for the new launched property
- As Godrej Property having a very robust pipeline of 12.3 msf for upcoming years, further new launches in Mumbai once relaxation in lockdown.
- We are expecting a strong recovery in residential market in 2nd half of 2022, company to get benefit of shift from unorganized to organized market as well as company have a great brand recognition.

# **Quess Corp**

- Quess Corp is one of India's leading human resource companies offering a range of solutions to employers for fulfilling their hiring requirement. The company is in the fast growing field of providing staffing solutions to companies and has registered a revenue CAGR of 52.6% between FY16 to FY21.
- Revenues for the company were impacted due to the lockdowns in 1HFY21. However, the company has registered a strong growth in 2HFY21 due to increased demand for staffing as lockdowns were eased. Though there could be some impact on revenues in Q1FY22 due to the second Covid wave we feel that it will be temporary in nature and the company should register strong growth for the rest of FY22 as there is a growing trend o outsource some of the non-core positions post the pandemic.
- Moreover, Quess Corp is trading at a P/E multiple of 20.0xFY23 EPS which is at a significant discount to Team Lease despite having similar return ratios. Given similar growth profile and return ratios we feel that Quess Corp offers value at current levels and rate it a BUY.

## **Stove Kraft**

- Stove Kraft Ltd (SKL) is engaged in the business of manufacturing & selling Kitchen & Home appliances products like pressure cookers, LPG stoves, non-stick cookware etc. under the brand name of 'Pigeon' and 'Gilma'.
- In the Pressure Cookers and Cookware segment, over the last two years, the company has outperformed Industry and its peers. Post Covid, organized players are gaining market share from unorganized players which would benefit the player like SKL.
- Going forward, we expect SKL to report healthy top-line & bottom-line growth on the back of new product launches, strong brand name and wide distribution network.

# **L&T Infotech**

- L&T Infotech (LTI) is one of the fastest growing mid cap IT companies in India. IT is part of the L&T group and provides services like ADM, Enterprise solutions, Infrastructure management services etc.
- The company has a very strong presence to the BFSI & manufacturing verticals which accounts for ~45% and 17.5% of the company's revenues and are amongst the least impacted verticals due to the shutdown on account of Covid 19. The company doesn't have a very large exposure to service oriented verticals like travel & Tourism which are amongst the worst impacted due to the Covid 19 outbreaks.
- LTI has been growing significantly faster than both mid and large cap peers over the past few years on the back of strong deal wins and we expect the outperformance to continue for the company. We expect the company to post revenue/EBITDA/PAT growth of 17.9%/20.5%/20.5% between FY20-FY23 given a strong deal pipeline and increased demand for digital solutions.
