For Q1FY2019, JSPL reported above expectation results on all fronts. Company registered revenue growth of 70% yoy/12% qoq to ₹ 9,540cr against ₹5,607cr/ ₹8,599cr respectively on consolidated basis. Domestic EBIDTA/tonne improved to ₹13,800 in the quarter under review from ₹12,873 (Q4FY18)/ ₹9,259 (Q1FY2018) due to improvement in sales realization. However steel production has been reduced due to temporary shutdown of Angul and Raigarh plants during the quarter.

JPL: Power segment has reported EBIDTA growth of 18% qoq to ₹314cr as against ₹265cr. Margins improved to 32% vs. 28% in Q4FY2018 owing to reduction in coal cost and improvement in PLF to 37% as against 31% in Q4FY2018. We believe that availability of coal would improve further owing to implementation of coal tolling arrangement of tenders of State Government with generators and in long term by introduction of Commercial Mining as proposed by GOI.

Outlook & Valuation: We maintain our Buy recommendation with a slight reduction in Target Price to ₹320 from ₹327 (due to increased net debt level). However, we expect JSPL to perform well in coming years owing to improving realization in steel segment, limited addition of steel capacity in near term and improving demand of steel going forward. We expect power segment to perform well on account of improving power demand situation and various effort by GoI for availability of coal to power generator.
