Directors' Report of Angel Broking Limited dated 14th May, 2020

3. RESERVE & SURPLUS:

Out of the total profit of ₹ 866.24 million for the financial year 2019-2020, Nil amount is proposed to be transferred to the General Reserve.

4. BRIEF DESCRIPTION OF THE COMPANY'S WORKING DURING THE YEAR AND THE IMPACT OF NOVEL COVID-19 ON THE BUSINESS:

Your Directors have pleasure to inform you that our strategy of transforming into a full-fledged digital player focusing on DIY clients coupled with simplified pricing model has yielded your Company significant positives in FY20, as highlighted below:

- Highest Annual Net Client Addition: **0.5 million (+130% YoY)**
- Highest Client Base ever: **1.8 million (+41% YoY)**
- Best ever rank in NSE Active Clients: **5th (up 2 places from Mar'19)**
- Highest ever NSE Active Clients: **~0.6 million**
- Highest ever ADTO: **₹ 413 billion (+146% YoY)**
- Highest ever Average Daily Orders: **0.5 million**
- Doubled Retail Market Share to **6.5% in Mar'20**, Improved market share in all segments

Our robust client addition during the year translated into expanding our CDSL market share in incremental demat accounts to 17% in Mar'20 from 8.7% in April'19. During the year, we offered Angel iTrade Prime Plan to our customers (flat pricing model), making it the best product available in the industry.

Despite FY20 being a challenging year for the macro economy impacted by liquidity constraints, weak balance sheets of lending institutions, falling GDP growth, higher fiscal deficit and depreciating currency our efforts to insulate the business have yielded positive results. Our consolidated gross revenues declined 3.7% YoY to ₹ 7.6 billion in FY20 against ₹ 7.9 billion in FY19, due to lower interest income. This was a result of our conscious decision to restrict our lending book size to curtail any risk associated to the fragile macro-economic environment. During the year, we also provided ₹ 165 million towards an one time event in our equity broking division. Despite this, our profit after tax stood higher by 3.3% at ₹ 824 million in FY20 against ₹ 798 million last year. With the surplus cash generated during the year, we deleveraged our balance sheet by 43.7% to ₹ 5 billion in FY20 from ₹ 8.7 billion last year and halved our debt:equity to 0.8x from 1.6x. We believe we are well positioned with technologically advanced best-in-class product, most competitive pricing plan, deleveraged balance sheet to capture the growth opportunity going forward.

Directors' Report of Angel Broking Limited dated 14th May, 2020

5. IMPACT OF NOVEL COVID-19 ON THE BUSINESS:

In order to curtail the rapid spread of the Novel Corona Virus (COVID-19), the Government of India announced a nationwide lockdown effective March 25, 2020, however certain essential services, including those involved in Capital Market Operations, were exempt from the purview of the aforesaid lockdown. Angel Broking, being part of capital market operations, did not experience any disruption of its business activities due to the lockdown. However, in compliance to the various directives, appropriate measures were taken to equip a majority of the employees to work from home and only about 5% - 7% employees worked onsite on extremely critical processes, which require on-site presence.

In spite of the unprecedented situation, we have been successful in averting any potential adverse impact on the business and have grown; and continue to outperform most of our peers. Most of our costs are highly elastic and in the future will be managed aptly. Contrary to the general perception, this crisis has hastened the adoption of digital processes and systems across the entire industry

Being a digital and technology driven organization, we have adapted to the offsite and flexible working environment for our employees, adequately empowering them with equipments and web-enabled tools to effectively perform their roles and responsibilities. We have also instituted various performance evaluation tools which specifically help measure the performance of employees working remotely. We intend to continue the policy of work from home/anywhere for a large section of our employees, in the future.

6. DIRECTORS' RESPONSIBILITY STATEMENT:

Pursuant to section 134(5) of the Companies Act, 2013 the Board of Directors to the best of their knowledge, belief and ability and explanations obtained by them confirm that:

- a) in the preparation of the annual accounts for the financial year ended 31st March, 2020, the applicable accounting standards have been followed and there are no material departures from prescribed accounting standards;
- b) we have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit and loss of the Company for that period;
- c) proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- d) the annual accounts have been prepared on a going concern basis; and

INDEPENDENT AUDITOR'S REPORT

To the Members of Angel Broking Limited

Report on the Audit of the standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of Angel Broking Limited ("the Company"), which comprise the Balance sheet as at March 31, 2020, the Statement of Profit and Loss, including Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SA), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash

flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the standalone Ind AS financial

S.R. BATLIBOI & CO. LLP

Chartered Accountants

statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these standalone Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (g) In our opinion, the managerial remuneration for the year ended March 31, 2020 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements - Refer Note 35 to the standalone Ind AS financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

S.R. BATLIBOI & CO. LLP
Chartered Accountants

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure 1 referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" of our Report of even date

Re: Angel Broking Limited

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) All fixed assets were physically verified by the management in the previous year in accordance with a planned program of verifying them once in three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.
- (ii) The Company's business does not involve inventories and, accordingly, the requirements under paragraph 3(ii) of the Order are not applicable to the Company.
- (iii) (a) The Company has granted loans to three companies covered in the register maintained under section 189 of the Companies Act, 2013. In our opinion and according to the information and explanations given to us, the terms and conditions of the grant of such loans are not prejudicial to the Company's interest.
- (b) The Company has granted loans that are re-payable on demand, to companies covered in the register maintained under section 189 of the Companies Act, 2013. The repayment of principal and interest during the year has been regular.
- (c) There are no amounts of loans granted to companies, firms or other parties listed in the register maintained under section 189 of the Companies Act, 2013 which are outstanding as at year end.
- (iv) In our opinion and according to the information and explanations given to us, provisions of sections 185 and 186 of the Companies Act 2013 in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made and, guarantees, and securities given have been complied with by the Company.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Companies Act, 2013 and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company.
- (vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, service tax, goods and service tax, cess and other statutory dues applicable to it. As informed, the provisions of sales tax, wealth tax, value added tax, excise duty and customs duty are currently not applicable to the Company.
- (b) According to the information and explanations given to us, undisputed dues in respect of provident fund, employees' state insurance, income-tax, goods and service tax, cess and other statutory dues which were outstanding, at the year end, for a period of more than six months from the date they became payable, are as follows:

Statement of Arrears of Statutory Dues Outstanding for More than Six Months

Name of the Statute	Nature of the Dues	Amount (Rs.)	Period to which the amount relates	Due Date	Date of Payment
Stamp Act	Stamp Duty on transfer of shares	56,159,651	2011-2019	Various	Unpaid as at March 31, 2020

As informed, the provisions of sales tax, value added tax, excise duty and customs duty are currently not applicable to the Company.

- (c) According to the records of the Company, the dues of income-tax on account of any dispute, are as follows:

Name of the statute	Nature of the dues	Amount (Rs.)	Period to which the amount relates	Forum where the dispute is pending
Income Tax Act, 1961	Income Tax Demand	66,47,348	AY 2005-06	Honorable High Court, Mumbai
Income Tax Act, 1961	Income Tax Demand	8,79,32,130	AY 2008-09	Honorable High Court, Mumbai
Income Tax Act, 1961	Income Tax Demand	36,24,780	AY 2012-13	CIT (Appeals)
Income Tax Act, 1961	Income Tax Demand	93,908,220	AY 2009-10	Honorable High Court, Mumbai
Income Tax Act, 1961	Income Tax Demand	38,501,729	AY 2010-11	Honorable High Court, Mumbai
Income Tax Act, 1961	Income Tax Demand	15,397,283	AY 2010-11	Honorable High Court, Mumbai

As informed, the provisions of sales tax, wealth tax, value added tax, excise duty and customs duty are currently not applicable to the Company.

- (viii) In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of loans or borrowing to a financial institution or bank. The Company did not have any outstanding loans or borrowing dues in respect of a government or dues to debenture holders during the year.
- (ix) According to the information and explanations given by the management, the Company has not raised any money by way of initial public offer/further public offer/debt instruments and term loans hence, reporting under clause 3(ix) is not applicable to the Company and hence not commented upon.
- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or on the Company, by the officers and employees of the Company has been noticed or reported during the year.

L

S.R. BATLIBOI & Co. LLP

Chartered Accountants

- (xi) According to the information and explanations given by the management, the managerial remuneration has been paid/provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.
- (xii) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the order are not applicable to the Company and hence not commented upon.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) are not applicable to the Company and, not commented upon.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of Companies Act, 2013.
- (xvi) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

**ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE
STANDALONE IND AS FINANCIAL STATEMENTS OF ANGEL BROKING LIMITED**

**Report on the Internal Financial Controls under Clause (l) of Sub-section 3 of Section 143 of the
Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Angel Broking Limited ("the Company") as of March 31, 2020, in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the internal financial controls over financial reporting with reference to these standalone financial statements.

**Meaning of Internal Financial Controls Over Financial Reporting With Reference to these
Standalone Financial Statements**

A Company's internal financial control over financial reporting with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and

S.R. BATLIBOI & CO. LLP

Chartered Accountants

fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1 Corporate information

Angel Broking Limited (Formerly known as Angel Broking Private Limited) (the 'Company') was originally incorporated on 08 August 1996, under the Companies Act, 1956. The Company has converted into public limited company w.e.f 28 June 2018 via a Certificate of Incorporation, issued by Registrar of Companies, Mumbai, Maharashtra.

The Company is a member of National Stock Exchange of India Limited (NSE), Bombay Stock Exchange Limited (BSE), National Commodities and Derivatives Exchange Limited (NCDEX), Multi Commodity Exchange of India Limited (MCX), Metropolitan Stock Exchange of India Limited (MSEI) and a depository participant with Central Depository Services (India) Limited (CDSL). The Company is engaged in the business of stock, currency and commodity broking, providing margin trading facility, depository services and distribution of mutual funds, to its clients; and earns brokerage, fees, commission and interest income thereon. The Company has also been providing portfolio management services. Its registered office is situated at Mumbai, India. The registered office address of the company is G-1, ground floor, Akruti Trade Centre, road no.-7, MIDC, Andheri (East) Mumbai 400093.

2 Basis of Preparation and presentation and Significant accounting policy

The Financial Statements of the Company comply in all material aspects with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

For all years up to and including the year ended 31 March 2019, the Company prepared its financial statements in accordance with Companies (Accounting Standards) Rules, 2006 (as amended) notified under the Act read with Rule 7 of the Companies (Accounts) Rules 2014 (as amended) and other generally accepted accounting principles in India (collectively referred to as 'Indian GAAP' or 'Previous GAAP').

The transition to Indian Accounting Standard (Ind AS) has been carried out in accordance with Ind AS 101 First Time adoption of Indian Accounting Standards. Accordingly, the impact of transition has been recorded in the opening reserves as at 01 April 2018 and the comparative previous year has been restated/reclassified.

An explanation of how the transition to Ind AS from the previous GAAP has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 4. Accounting policies have been consistently applied to all the financial year presented in the financial statements, including the preparation of the opening Ind AS balance sheet as at 01 April 2018 being the 'date of transition' to Ind AS, except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

The Balance Sheet, the Statement of Changes in Equity and the Statement of Profit and Loss are presented in the format prescribed under Division III of Schedule III of the companies Act, as amended from time to time that are required to comply with Ind AS. The Statement of Cash Flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flows.

The financial statements have been prepared under the historical cost convention and on accrual basis, except for certain financial assets and liabilities, defined benefit- plan liabilities and share based payments being measured at fair value.

These financial statements are presented in Indian Rupees (INR)/(Rs.), which is also its functional currency and all values are rounded to the nearest rupee. Except when otherwise indicated.

The standalone financial statements for the year ended 31 March 2020 are being authorised for issue in accordance with a resolution of the directors on 14 May 2020.

Significant accounting policy

2.1 Revenue Recognition

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

- (i) Revenue from contract with customer is recognised point in time when performance obligation is satisfied. Income from broking activities is accounted for on the trade date of transactions.
- (ii) Dividend income is recognised when the right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.
- (iii) Revenue from Depository services have been accounted at point in time or over a period of time as per terms and conditions with the client.
- (iv) Portfolio Management Fees are accounted over a period of time as follows:
Performance obligations are satisfied over a period of time and portfolio management fees are recognized in accordance with the Portfolio Management Agreement entered with respective clients i.e., as per predecided percentage over the portfolio managed by company.
- (v) Revenue from contract with customer is recognised point in time when performance obligation is satisfied i.e., as per pre decided percentage over the portfolio managed by company. An entity shall recognise a refund liability if the entity receives consideration from a customer and expects to refund some or all of that consideration to the customer.

2

(vi) Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs).

(vii) Delayed payment charges (Interest on late payments) are accounted at a point in time of default.

(viii) In respect of other heads of Income it is accounted to the extent it is probable that the economic benefits will flow and the revenue can be reliably measured, regardless of when the payment is being made.

2.2 Property, plant and equipment

(i) Recognition and measurement

Tangible property, plant and equipment are stated at cost less accumulated depreciation and impairment, if any. The cost of property, plant and equipment comprise purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

(ii) Subsequent expenditure

Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefit associated with these will flow with the Company and the cost of the item can be measured reliably.

(iii) Depreciation, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives in the manner prescribed in Schedule II of the Act. The estimated lives used are noted in the table below:-

Property Plant & Equipment	Useful life (in Years)
Buildings	60
Leasehold Improvements	Amortised over the primary period of lease
Office Equipments	5
Air Conditioners	5
Computer Equipments	3 to 6
VSAT Equipments	5
Furniture and Fixtures	10
Vehicles	8

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. Changes in the expected useful life are accounted for by changing the depreciation period or methodology, as appropriate, and treated as changes in accounting estimates.

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognised in the statement of Profit and Loss when the item is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

For transition to Ind AS, the Company has elected to continue with carrying value of its property, plant and equipment recognised as of 01 April 2018 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.3 Investment property

Investment property is property held to earn rentals and for capital appreciation. Investment Property are measured initially at cost including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

The carrying amount of an item of property is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognised in the statement of Profit and Loss when the item is derecognised.

For transition to Ind AS, the Company has elected to continue with carrying value of its investment property recognised as of April 1, 2018 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.4 Intangible assets

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Company. Software and system development expenditure are capitalised at cost of acquisition including cost attributable to readying the asset for use. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses. The useful life of these intangible assets is estimated at 5 years with zero residual value. Any expenses on such software for support and maintenance payable annually are charged to the statement of profit and loss.

For transition to Ind AS, the Company has elected to continue with carrying value of its intangible assets recognised as of 01 April 2018 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

The residual values, useful lives and methods of amortisation are reviewed at each financial year end and adjusted prospectively, if appropriate. Changes in the expected useful life are accounted for by changing the depreciation period or methodology, as appropriate, and treated as changes in accounting estimates.

2.5 Financial instruments

(i) Date of recognition

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

(ii) Initial measurement

Financial assets and liabilities, with the exception of loans, debt securities, deposits and borrowings are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. Recognised financial instruments are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

(iii) Classification and subsequent measurement

(A) Financial assets

Based on the business model, the contractual characteristics of the financial assets and specific elections where appropriate, the Company classifies and measures financial assets in the following categories :

- Amortised cost
- Fair value through other comprehensive income ('FVOCI')
- Fair value through profit or loss ('FVTPL')

(a) Financial assets carried at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL :

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows ('Asset held to collect contractual cash flows'); and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ('SPPI') on the principal amount outstanding.

After initial measurement and based on the assessment of the business model as asset held to collect contractual cash flows and SPPI, such financial assets are subsequently measured at amortised cost using effective interest rate ('EIR') method. Interest income and impairment expenses are recognised in profit or loss. Interest income from these financial assets is included in finance income using the EIR method. Any gain and loss on derecognition is also recognised in profit or loss.

The EIR method is a method of calculating the amortised cost of a financial instrument and of allocating interest over the relevant period. The EIR is the rate that exactly discounts estimated future cash flows (including all fees paid or received that form an integral part of the EIR, transaction costs and other premiums or discounts) through the expected life of the instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

(b) Financial assets at fair value through other comprehensive income

Financial assets that are held within a business model whose objective is both to collect the contractual cash flows and to sell the assets, ('Contractual cash flows of assets collected through hold and sell model') and contractual cash flows that are SPPI, are subsequently measured at FVOCI. Movements in the carrying amount of such financial assets are recognised in Other Comprehensive Income ('OCI'), except interest / dividend income which is recognised in profit and loss. Amounts recorded in OCI are subsequently transferred to the statement of profit and loss in case of debt instruments however, in case of equity instruments it will be directly transferred to reserves. Equity instruments at FVOCI are not subject to an impairment assessment.

(c) Financial assets at fair value through profit and loss

Financial assets, which do not meet the criteria for categorization as at amortized cost or as FVOCI, are measured at FVTPL. Subsequent changes in fair value are recognised in profit or loss. The Company records investments in equity instruments and mutual funds at FVTPL.

(B) Financial liabilities and equity instrument

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(a) Equity instrument

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company is recognised at the proceeds received, net of directly attributable transaction costs.

(b) Financial liabilities

Financial liabilities are measured at amortised cost. The carrying amounts are initially recognised at fair value and subsequently determined based on the EIR method. Interest expense is recognised in profit or loss. Any gain or loss on de-recognition of financial liabilities is also recognised in profit or loss. The company does not have any financial liability which are measured at FVTPL.

(iv) Reclassification

Financial assets are not reclassified subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line or in the period the Company changes its business model for managing financial assets. Financial liabilities are not reclassified.

(v) Derecognition

(A) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- The contractual rights to receive cash flows from the financial asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset and the Company has transferred substantially all the risks and rewards of the asset, or the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

If the Company neither transfers nor retains substantially all of the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for the amount it may have to pay.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss (except for equity instruments measured at FVOCI).

8

A

(B) Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying value of the original financial liability and the new financial liability with modified terms is recognised in profit or loss.

(vi) Impairment of financial assets**A) Trade receivables**

The Company applies the Ind AS 109 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance (ECL) for all trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on average of historical loss rate adjusted to reflect current and available forward-looking information affecting the ability of the customers to settle the receivables. The Company has also computed expected credit loss due to significant delay in collection.

B) Other financial assets:

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

2.6 Lease**Company as a lessee**

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset. The company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the company assess whether (i) the contract involves the use of an identified assets ; (ii) the company has substantially all the economic benefits from use of the assets through the period of the lease and (iii) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the company recognises a right-of-use assets (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 month or less (short term leases) and low value leases. For these short term and low value leases, the company recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease, less any lease incentives received. Subsequently, the right-of-use assets is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

For lease liabilities at inception, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

Lease liability has been included in borrowing and ROU asset has been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Company as a Lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the term of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

For operating leases, rental income is recognised on a straight line basis over the term of the relevant lease.

2.7 Cash and cash equivalents

Cash and cash equivalents includes cash at banks and on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Company's cash management.

2.8 Impairments of Non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. An asset is impaired when the carrying amount of the asset exceeds its recoverable amount. An impairment loss is charged to the Statement of Profit and Loss in the period in which an asset is identified as impaired. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

2.9 Retirement and other employee benefits

(i) Provident fund

Retirement benefit in the form of provident fund, is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

(ii) Gratuity

Every employee is entitled to a benefit equivalent to 15 days salary last drawn for each completed year of service in line with The Payment of Gratuity Act, 1972. The same is payable at the time of separation from the company or retirement, whichever is earlier. The benefit vest after five years of continuous service.

The company's gratuity scheme is a defined benefit plan. The company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior period. Such benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted.

The present value of the obligation under such benefit plan is determined based on actuarial valuation using the Projected Unit credit Method which recognizes each period of services as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at present values of estimated future cash flows. The discounted rates used for determining the present value are based on the market yields on Government Securities as at the balance sheet date.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

(iii) Compensated absences

The employees of the Company are entitled to compensated absences as per the policy of the Company. The Company recognises the charge to the statement of profit and loss and corresponding liability on account of such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing compensated absences are determined using the projected unit credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in statement of Profit and Loss.

(iv) Presentation

For the purpose of presentation of defined benefit plans and other long term employee benefits, the allocation between current and non-current has been made as determined by an actuary.

(v) Share based payments

Equity-settled share-based payments to employees that are granted are measured by reference to the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the vesting conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit and loss, with a corresponding adjustment to equity.

In respect of options granted to the employees of the subsidiary companies, the amount equal to the expense for the grant date fair value of the award is recognized as a debit to investment in subsidiary as a capital contribution and a credit to equity.

2.10 Provisions, contingent liabilities and contingent assets

A provision is recognised when the Company has a present obligation as a result of a past event and it is probable that an outflow of embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements. Provisions are reviewed at each balance sheet date and adjusted to effect current management estimates. Contingent liabilities are recognised when there is possible obligation arising from past events.

2.11 Income Taxes

Income tax expense comprises current and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to items recognised directly in equity or in OCI.

(i) Current tax

Current tax is measured at the amount expected to be paid in respect of taxable income for the year in accordance with the Income Tax Act, 1961. Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset only if the Company has a legally enforceable right to set off the recognised amounts, and it intends to realise the asset and settle the liability on a net basis or simultaneously.

2

(ii) **Deferred tax**

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax assets arising mainly on account of carry forward losses and unabsorbed depreciation under tax laws are recognised only if there is reasonable certainty of its realisation, supported by convincing evidence.

Deferred tax assets on account of other temporary differences are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted at the Balance Sheet date. Changes in deferred tax assets / liabilities on account of changes in enacted tax rates are given effect to in the standalone statement of profit and loss in the period of the change. The carrying amount of deferred tax assets are reviewed at each Balance Sheet date.

Deferred tax assets and deferred tax liabilities are off set when there is a legally enforceable right to set-off assets against liabilities representing current tax and where the deferred tax assets and deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

2.12 Earning per share (basic and diluted)

The Company reports basic and diluted earnings per equity share. Basic earnings per equity share have been computed by dividing net profit/loss attributable to the equity share holders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share have been computed by dividing the net profit attributable to the equity share holders after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

2.13 Borrowing costs

Expenses related to borrowing cost are accounted using effective interest rate. Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

2.14 Investment in subsidiaries

Investments in subsidiaries, joint ventures and associates are recognised at cost as per Ind AS 27. Except where investments accounted for at cost shall be accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale.

2.15 Goods and services tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax paid, except when the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables, respectively, in the balance sheet.

2.16 Foreign currency

Transactions in foreign currencies are recorded at the rate of exchange prevailing on the date of the transaction. Exchange differences arising on settlement of revenue transactions are recognised in the statement of profit and loss. Monetary assets and liabilities contracted in foreign currencies are restated at the rate of exchange ruling at the Balance Sheet date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

2.17 Segment

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicator sby business segments and geographic segments.

3 Critical accounting estimates and judgements

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognised in the periods in which the Company becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. Following are estimates and judgements that have significant impact on the carrying amount of assets and liabilities at each balance sheet:

3.1 Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI (Solely Payments of Principal and Interest) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the standalone statement of profit and loss in the period in which they arise.

①

3.2 Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility. For further details about determination of fair value please see Note 42

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements under Ind AS are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Company can access at measurement date

3.3 Effective Interest Rate (EIR) method

The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the financial instruments.

This estimation, by nature, requires an element of judgement regarding the expected behavior and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

3.4 Provisions and other contingent liabilities

The company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the company's business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

3.5 Share based payments

Estimating fair value for share based payment requires determination of the most appropriate valuation model. The estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share based payments transactions are discussed in Note 38.

3.6 Expected Credit loss

When determining whether the risk of default on a financial instruments has increased significantly since initial recognition, the company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the company's historical experience and credit assessment and including forward looking information.

The inputs used and process followed by the company in determining the ECL have been detailed in Note 43.

3.7 Deferred Tax

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences become deductible. The Company considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realisable, however, could be reduced in the near term if estimates of future taxable income during the carry-forward period are reduced.

3.8 Defined benefit plans

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

3.9 Leases

Ind AS 116 defines a lease term as the non-cancellable period for which the lessee has the right to use an underlying asset including optional periods, when an entity is reasonably certain to exercise an option to extend (or not to terminate) a lease. The Company consider all relevant facts and circumstances that create an economic incentive for the lessee to exercise the option when determining the lease term. The option to extend the lease term are included in the lease term, if it is reasonably certain that the lessee will exercise the option. The Company reassess the option when significant events or changes in circumstances occur that are within the control of the lessee.

2

4 Reconciliations

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables presents the reconciliation from regrouped previous GAAP/Indian GAAP to Ind AS.

(a) Reconciliation of equity as at date of transition 01 April, 2018

(Amount in Rs.)

	Notes to first-time adoption	Indian GAAP*	Adjustments	Ind AS
ASSETS				
Financial Assets				
Cash and cash equivalents		79,26,80,959	-	79,26,80,959
Bank Balance other than cash and cash equivalent		8,12,17,23,988	-	8,12,17,23,988
Trade Receivables	(i)	1,57,06,35,331	(1,64,78,131)	1,55,41,57,200
Loans	(ii)	9,87,46,37,060	(7,69,259)	9,87,38,67,801
Investments	(iii)	94,79,05,614	43,09,463	95,22,15,077
Other Financial assets	(iv)	26,75,58,561	(52,87,953)	26,22,70,608
Non-financial Assets				
Tax assets (Net)		1,17,02,949	-	1,17,02,949
Deferred tax assets (Net)	(vii)	3,79,10,631	49,59,768	4,28,70,399
Investment Property	(viii)	-	13,32,883	13,32,883

2

(f) Notes to first-time adoption

(i) Expected credit loss on Trade receivable

In the financial statements prepared under Previous GAAP, the carrying value of trade receivable was recognised at the principal amounts receivable customer. Under Ind AS expected credit loss was provided for loss in time value of money. The difference between gross trade receivable less present value of gross trade receivable amounted Rs. 1,83,22,917 as at 31 March 2019 is recognised as expected credit loss provision. The discounted trade receivable are carried at amortised cost subsequently with interest income recognised in profit or loss.

(ii) EIR Impact of interest free loan to directors

Under Previous GAAP, the carrying value of Interest free loan to director was recognised at the principal amount receivable. Under Ind AS, interest free loan being a financial asset is required to be recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. The difference between fair value of loan and the carrying value of loan is recognised as prepaid employee cost which is disclosed under "Other non-financial assets". Accordingly, loan to employee is credited and prepaid expense is debited. Total comprehensive income has increased by Rs. 1,77,240 due to interest income on amortised loan by Rs. 5,46,201 which is partially offset by employee benefits expense by Rs. 3,68,961.

(iii) Fair Valuation of Equity Shares

Difference between the instruments' fair value of investment as on 31st March 2018 and 31st March 2019 amounting to Rs. 43,09,463 has been reversed through Statement of Profit and Loss respectively.

(iv) Security deposit

Under Indian GAAP, interest-free security deposit given are recorded at their transaction value. Under Ind AS, all financial assets are required to be recognized at fair value. Accordingly, the Company has fair valued the security deposits given under Ind AS. The profit for the year ended on 31 March 2019 is reduced by INR 1,69,093 due to recognition of right of use asset over the lease term amounting to INR 25,49,040 and amortisation of prepaid expense amounted INR 7,71,831 and notional interest income of INR 31,51,778 recognised on security deposits over the tenure of security deposit given.

(v) Operating Lease capitalised as per Ind AS 116Initial recognition and measurement

The company has elected the 'modified retrospective approach.

Subsequent measurement:

The lease liability is measured in subsequent periods using the effective interest rate method. The right-of-use asset is depreciated using straight-line basis in which the entity expects to consume the right-of-use asset.

As per para D9B of Ind AS 101 Company while recognising lease liabilities and right-of-use assets, has applied following approach to all of its leases, to measure a lease liability at the date of transition to Ind AS. Company has measured lease liability at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate at the initial application date of Ind AS. Right of use asset has been measured as lease liability adjusted for prepaid rent at the initial application date of Ind AS.

Ind AS 116 is applicable to the Company from 1 April 2019. An entity is required to use the same accounting policies in its opening Ind AS Balance Sheet and throughout all periods presented in its first Ind AS financial statements. Those accounting policies are required to comply with each Ind AS effective at the end of its first Ind AS reporting period.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.
4. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases.

Consequent to this, the right to use asset is increased by INR 19,59,95,514 as at 31 March 2019 and Lease liability is increased by INR 20,94,43,882 as at 31 March 2019.

(vi) Actuarial gain/loss

Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurement gains and losses, are recognised in other comprehensive income. Thus, employee benefits expense is decreased by INR 40,33,309 and is recognised in other comprehensive income during the year ended 31 March 2019. The related deferred tax expense of Rs. 14,09,404 for the year ended 31 March 2019 has also been reclassified from Profit and loss account to other comprehensive income.

(vii) Deferred Tax

In the financial statements prepared under Previous GAAP, deferred tax was accounted as per the income statement approach which required creation of deferred tax asset/liability on temporary differences between taxable profit and accounting profit. Under Ind AS, deferred tax is accounted as per the Balance Sheet approach which requires creation of deferred tax asset/liability on temporary differences between the carrying amount of an asset/liability in the Balance Sheet and its corresponding tax base. Consequently, deferred tax assets increased by INR 1,58,45,941 as on 31 March 2019 respectively.

(viii) Investment Property

Under the previous GAAP, investment properties were presented as part of property, plant and equipment. Under Ind AS, investment properties are required to be separately presented on the face of the balance sheet. There is no impact on the total equity or profit as a result of this adjustment. As at 31 March 2019, investment property has been reclassified amounting to Rs. 13,06,097.

(ix) Employee Stock Option Plan

The company has granted equity settled options to the employees of the Company and its subsidiaries. Under previous GAAP, the Company has not recognised for these share-based payment arrangement as the exercise price was equivalent to the fair value of share price. Under Ind AS, the Company has opted to account for the unvested options for comparative period. Accordingly, the grant date fair value of equity settled options have been recognised as an expense over the vesting period in the statement of profit or loss with a corresponding increase being made to Equity-Settled share-based payment reserve. Thus profit is decreased by INR 1,30,02,574 for the year ended 31 March 2019. There is no change in equity.

Further, Investments has increased by Rs. 13,11,822 as on 31 March 2019 on account of ESOPs issued to the employees of subsidiary companies.

(x) Cash flow Statement

The Ind AS adjustments are either non-cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended 31 March 2019 as compared with the previous GAAP.

(i) Optional exemptions and Mandatory exception

Set out below are the Ind AS 101 optional exemptions availed as applicable and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

(A) Optional Exemptions availed

(a) Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment, intangible assets and Investment property as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption is also applicable for intangible assets and Investment property.

Accordingly, the Company has elected to measure all of its property, plant and equipment, intangible assets and Investment property at their previous GAAP carrying value.

(b) Investment in Subsidiaries, Joint ventures and Associates

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its investment in subsidiaries as recognised in the financial statements at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

Accordingly, the Company has elected to measure all of its investments in subsidiaries at their previous GAAP carrying value.

(c) Business Combination

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from 01 April, 2017 date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. During the year 2017-2018 Angel commodities Broking Private limited (ACBPL) merged with Angel Broking Limited and the Company has availed the said exemption and elected to apply Ind AS 103 prospectively to business combinations occurring after its transition date. Accordingly business combinations occurring prior to the transition date have not been restated.

(d) Revenue from contracts with customers

The Company has availed the following practical expedients in applying the standard retrospectively:

- a. For completed contracts within the same annual reporting period, no restatement has been done;
- b. For completed contracts that have variable consideration, the Company has used the transaction price at the date the contract was completed rather than estimating variable consideration amounts in the comparative reporting periods; and
- c. For all reporting periods presented before the beginning of the first Ind AS reporting period, no disclosures of the amount of transaction price allocated to the remaining performance obligations have been done.

(B) Mandatory exceptions

(a) Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies).

Ind AS estimates as at 01 April 2018 and 31 March 2019 are consistent with the estimates as at the same date made in conformity with previous GAAP. The company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVPL or FVOCI;
- Impairment of financial assets based on expected credit loss model.

(b) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

(c) De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions. The Company has applied the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

(d) Impairment of financial assets

The company has applied the impairments requirement of Ind AS 109 retrospectively; however as permitted by Ind AS 101, it has used the reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments which were initially recognised and compare that to the credit risk at the date of transition to Ind AS.

Depreciation	(26,787)	(26,786)
Income arising from investment properties (Net)	6,37,096	4,80,110

(C) Measurement of fair values

(i) Fair value hierarchy

These fair value of investment property has been determined by Rane Engineers & Surveyors Pvt. Ltd., an accredited independent valuer. The fair value measurement for the property to be valued is residential flat which is the highest and best use, been categorized as a level 2 fair value based on the inputs to the valuation technique. These inputs include comparable sale instances for 'Market Approach and Comparable Rental' instances for income approach.

(ii) Valuation technique

For the purpose of valuation, the primary valuation methodology used is Market Approach, as the best evidence of fair value is current prices in an active market for similar properties and cross checked by Income Capitalisation Approach. The market rate for sale/purchase of similar assets is representative of fair values. The property to be valued is at a location where active market is available for similar kind of properties. Income capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate market-based yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

(D) Premises given on operating lease

The Company's investment properties consist of residential property in India given on cancellable lease for a period of 12 month.

2

Angel Broking Limited
(Formerly known as Angel Broking Private Limited)

Notes forming part of the Financial Statements for the year ended 31 March 2020

(E) The total future minimum lease rentals receivable at the Balance Sheet date is as under: (Amount in Rs.)

Closing balance	3,42,92,827	1,43,14,396

Nature and purpose of reserves

(A) General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. This reserve can be utilised only in accordance with the specified requirements of Companies Act, 2013.

(B) Securities premium

Securities premium is used to record the premium received on issue of shares. The reserve can be utilised only for limited purposes in accordance with the provisions of the Companies Act, 2013.

(C) Retained earnings

Retained earnings are the profits that the Company has earned till date, less any transfers to generate reserve, dividends or other distributions paid to Shareholders. It also includes remeasurement gains and losses on defined benefit plans recognised in other comprehensive income (net of taxes).

(D) Equity-Settled share-based payment reserve

This reserve is created by debiting the statement of profit and loss account with the value of share options granted to the employees by the Company. Once shares are issued by the Company, the amount in this reserve will be transferred to Share capital, Securities premium or retained earnings.

- (v) Rs. 3,85,01,729/- on account of disallowance made as deemed dividend for Assessment Year 2010-11 considered by ITAT in favour of the Company. Department filed an appeal before Hon'ble High Court of Bombay on July 25, 2018; and
- (vi) Rs. 1,53,97,283/- on account of disallowance made as deemed dividend for Assessment Year 2010-11 relates to erstwhile Angel Broking Limited considered by ITAT in favour of the Company. Department filed an appeal before Hon'ble High Court of Bombay on July 25, 2018.

Above disputed income tax demands does not include interest u/s 234B and u/s 234C of the Income Tax Act, 1961 as the same is not determinable till the final outcome. The management believes that the ultimate outcome of the above proceedings will not have a material adverse effect on the Company's financial position and result of operations.

36 Capital commitments

(Amount in Rs.)

	31 March 2020	31 March 2019	01 April 2018
Capital commitment for purchase of property, plant and equipments and Intangible assets	26,17,000	1,78,29,500	26,75,219

37 Employee benefits

(A) Defined Contribution Plans

During the year, the Company has recognized the following amounts in the Statement of Profit and Loss

(Amount in Rs.)

	31 March 2020	31 March 2019
Employers' Contribution to Provident Fund and Employee State Insurance	6,78,80,118	7,01,36,482

(B) Defined benefit plans

Gratuity payable to employees

The Company's liabilities under the Payment of Gratuity Act, 1972 are determined on the basis of actuarial valuation made at the end of each reporting period using the projected unit credit method.

The gratuity benefit is provided through unfunded plan and annual contributions are charged to the statement of profit and loss. Under the scheme, the settlement obligation remains with the Company. Company accounts for the liability for future gratuity benefits based on an actuarial valuation. The net present value of the Company's obligation towards the same is actuarially determined based on the projected unit credit method as at the Balance Sheet date.

Discount rate

Discount Rate for this valuation is based on government bonds having similar term to duration of liabilities. Due to lack of a deep and secondary bond market in India, government bond yields are used to arrive at the discount rate.

Mortality/ disability

If the actual mortality rate in the future turns out to be more or less than expected then it may result in increase / decrease in the liability.

Employee turnover/withdrawal rate

If the actual withdrawal rate in the future turns out to be more or less than expected then it may result in increase / decrease in the liability

Salary escalation rate

More or less than expected increase in the future salary levels may result in increase / decrease in the liability.

(i) Principal assumptions used for the purposes of the actuarial valuations

	31 March 2020	31 March 2019
Economic Assumptions		
Discount rate (per annum)	5.74%	6.93%
Salary Escalation rate	3.00%	3.00%
Demographic Assumptions		
Mortality	IALM (2012-14) Ultimate	IALM (2006-08) Ultimate
Employee turnover/Withdrawal rate		
(A) Sales Employees		
(i) For service less than 4 years	99%	99%
(ii) Thereafter	2%	2%
(B) Non-sales employees		
(i) For service less than 4 years	49%	49%
(ii) Thereafter	2%	2%
Retirement age	58 years	58 years

(ii) Amount recognised in balance sheet

(Amount in Rs.)

	31 March 2020	31 March 2019
Present value of unfunded defined benefit obligation	3,95,42,214	2,72,21,533
Net liability recognized in Balance Sheet	3,95,42,214	2,72,21,533
Current benefit obligation	34,90,292	11,81,184
Non-current obligation	3,60,51,922	2,60,40,349
Net liability recognized in Balance Sheet	3,95,42,214	2,72,21,533

(iii) Changes in the present value of defined benefit obligation (DBO)

(Amount in Rs.)

	31 March 2020	31 March 2019
Present value of obligation at the beginning of the year	2,72,21,533	2,42,31,406
Interest cost on DBO	20,71,335	19,04,486
Current service cost	65,16,897	57,28,094
Benefits paid	(86,90,671)	(86,75,762)
Actuarial (gain)/ loss on obligations		
- Effect of change in Financial Assumptions	42,86,172	6,03,623
- Experience (gains)/losses	81,36,948	34,29,686
Present value of obligation at the end of the year	3,95,42,214	2,72,21,533

The weighted average duration of defined benefit obligation is 3.35 years as at 31 March 2020 (31 March 2019: 3.43 years and 01 April 2018: 3.47 years).

(iv) Expense recognized in the Statement of Profit and Loss

(Amount in Rs.)

	31 March 2020	31 March 2019
Service cost	65,16,897	57,28,094
Net Interest cost	20,71,335	19,04,486
Total expenses recognized in the Statement Profit and Loss	85,88,232	76,32,580

(v) Expense recognized in Other comprehensive income

(Amount in Rs.)

	31 March 2020	31 March 2019
Remeasurements due to-		
- Effect of change in financial assumptions	42,86,172	6,03,623
- Effect of experience adjustments	81,36,948	34,29,686
Net actuarial (gains) / losses recognised in OCI	1,24,23,120	40,33,309

(vi) Quantitative sensitivity analysis

(Amount in Rs.)

	31 March 2020	31 March 2019
Impact on defined benefit obligation		
Discount rate		
1% increase	(45,09,663)	(31,04,583)
1% decrease	51,45,462	35,42,305
Salary escalation rate		
1% increase	47,58,742	32,76,081
1% decrease	(41,42,358)	(28,51,694)
Withdrawal rate		
1% increase	20,62,026	14,19,488
1% decrease	(18,21,230)	(12,53,782)

2

(vii) Maturity profile of defined benefit obligation		(Amount in Rs.)	
Year	31 March 2020	31 March 2019	
Within next 12 months	35,89,066	12,21,427	
Between 2 and 5 years	76,65,689	61,54,708	
Between 5 and 10 years	90,37,715	85,53,141	
Beyond 10 years	6,49,53,139	5,30,52,024	
Total expected payments	8,52,45,609	6,89,81,300	

38 Employee stock option plan

(a) On April 26, 2018, the board of directors approved the Angel Broking Employee Stock Option Plan 2018 (Scheme 2018) for issue of stock options to the key employees and directors of the company and its subsidiaries (Angel Fincap Private Limited and Angel Financial advisors Private Limited). According to the Scheme 2018, the employee selected by the Nomination and Remuneration Committee from time to time will be entitled to options, subject to satisfaction of the prescribed vesting conditions, viz., continuing employment of 14 months and subject to performance parameters defined in the Scheme 2018. The contractual life (comprising the vesting period and the exercise period) of options granted is 50 months.

(b) Summary of option granted under the scheme

	31 March 2020	31 March 2019
	Number of option	Number of option
Opening balance	25,34,370	-
Granted during the year	-	29,40,870
Exercised during the year*	-	-
Forfeited / Lapsed during the year	(2,76,770)	(4,06,500)
Closing balance	22,57,600	25,34,370
Vested and exercisable	1,83,640	-

*The weighted average share price at the date of exercise of options exercised during the year ended 31 March 2020 is Rs. 211.51 (31 March 2019: Rs. 211.51)

(c) Expiry date and exercises prices of the share options outstanding

Grant date	Expiry date	Exercise price	Share options as at 31 March 2020	Share options as at 31 March 2019
11 May 2018	11 July 2020	211.51	1,47,990	1,80,560
11 May 2018	11 July 2021	211.51	3,47,920	3,61,120
11 May 2018	11 July 2022	211.51	5,21,880	5,41,680
11 May 2018	11 July 2023	211.51	6,95,840	7,22,240
01 August 2018	01 October 2020	211.51	16,450	34,450
01 August 2018	01 October 2021	211.51	32,900	68,900
01 August 2018	01 October 2022	211.51	49,350	1,03,350
01 August 2018	01 October 2023	211.51	65,800	1,37,800
15 October 2018	15 December 2020	211.51	12,000	15,000
15 October 2018	15 December 2021	211.51	30,000	30,000
15 October 2018	15 December 2022	211.51	45,000	45,000
15 October 2018	15 December 2023	211.51	60,000	60,000
02 November 2018	02 January 2021	211.51	7,200	9,000
02 November 2018	02 January 2022	211.51	18,000	18,000
02 November 2018	02 January 2023	211.51	27,000	27,000
02 November 2018	02 January 2024	211.51	36,000	36,000
18 March 2019	18 May 2021	211.51	14,427	14,427
18 March 2019	18 May 2022	211.51	28,854	28,854
18 March 2019	18 May 2023	211.51	43,281	43,281
18 March 2019	18 May 2024	211.51	57,708	57,708
Total			22,57,600	25,34,370
Weighted average remaining contractual life of options outstanding at end of year			1.48 years	2.39 years

(d) The fair value of each option granted is estimated on the date of grant using the black scholes model with the following assumptions

Scheme	A	B	C	D	E
Grant date	11 May 2018	01 August 2018	15 October 2018	02 November 2018	18 March 2019
Weighted average fair value of options granted	20.13	7.26	2.78	2.68	2.18
Exercise price	211.51	211.51	211.51	211.51	211.51
Share price at the grant date	211.51	142.37	103.17	100.34	95.31
Expected volatility	28.44%- 40.95%	31.30%-40.30%	34.21%-39.95%	36.99%-41.46%	40.03%-41.14%
Risk free interest rate	7.04%- 7.78%	7.14%- 7.81%	7.47%-7.86%	7.20%-7.63%	6.58%-7.00%
Expected dividend yield	30%	30%	30%	30%	30%

The expected price volatility is based on the historic volatility (based on the remaining life of options), adjusted for any expected changes to future volatility due to publicly available information.

Life of options - The employees have a period of 1 year from vesting date, to exercise their vested options. The management expects that these options will be exercised immediately on its vesting.

(e) Expense arising from share based payment transaction	(Amount in Rs.)	
	31 March 2020	31 March 2019
Gross expense arising from share based payments	1,99,78,431	1,43,14,396
Less: Options granted to employees of subsidiaries recognised as deemed investment in subsidiaries	(25,41,142)	(13,11,822)
Employee share based payment expense recognised in statement of profit and loss	1,74,37,289	1,30,02,574

The company has borrowed overdraft facilities of Rs. 4.21 crores, which is secured against a lien on fixed deposits of Angel Financial Advisors Private Limited ("a wholly owned subsidiary"). Refer note 19(b) for personal guarantee given by director against overdraft facilities obtained from banks.

No rent is charged on property taken from one of the directors which is used as an office by the Company. Rs. 75,00,000 pertains to security deposits paid against the same property.

40 Segment reporting

The Company's operations predominantly relate to equity, currency and commodity broking and its related activities business and is the only operating segment of the Company. The

Chief Operating Decision Maker (CODM) reviews the operations of the Company as one operating segment. Hence no separate segment information has been furnished herewith.

The Company operates in one geographic segment namely "within India" and hence no separate information for geographic segment wise disclosure is required.

The Company is presenting consolidated financial statements and hence in accordance with "IND AS 108 Segment Reporting", segment information is disclosed in consolidated financial statements

41 Leases

Information about lease

The Company has taken office premises at certain locations on operating lease. The agreements are executed for a period ranging from 11 months to 108 months.

The changes in the carrying value of right of use assets for the year ended 31 March 2020 and 31 March 2019 has been disclosed in Note 16.

The aggregate depreciation expense on right of use assets is included under depreciation and amortisation expense in the statement of Profit and Loss.

The movement in lease liabilities has been disclosed in Note 19.

The below table provides the details regarding the contractual maturities of lease liabilities on an undiscounted basis:

(Amount in Rs.)

	As at 31 March 2020	As at 31 March 2019	As at 01 April 2018
Less than one year	8,20,93,800	8,15,28,010	4,14,08,365
One to five years	13,04,84,446	16,74,59,259	9,44,06,119
More than five years	61,54,975	43,67,214	70,91,541
Total	21,87,33,221	25,33,54,483	14,29,06,025

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Short term and low value lease:

Rental expense incurred and paid for short term leases was Rs. 7,68,096 (31 March 2019: Rs. 3,36,000).

Rental expense incurred and paid for Low value leases was Rs. 15,000 (31 March 2019: Rs. 60,000).

The weighted average incremental borrowing rate applied to lease liabilities as at 01 April 2018 is 9.80% p.a.

Bank Balance other than cash and cash equivalent	-	-	7,85,19,99,173
Trade Receivables	-	-	38,65,03,886
Loans	-	-	2,49,56,71,783
Investments	-	350	-
Other Financial assets	-	-	2,69,35,15,094
Total Financial Assets	-	350	19,32,76,08,761
Financial Liabilities			
Trade payables	-	-	9,39,45,26,951
Borrowings (Other than Debt Securities)	-	-	4,87,72,75,260
Other financial liabilities	-	-	1,28,56,20,573
Total Financial liabilities	-	-	15,55,74,22,784

* Investment in subsidiaries is measured at cost as at 31 March 2020, 31 March 2019 and 01 April 2018.

2

B Fair Value hierarchy

The following is the hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis:

(Amount in Rs.)

	Level 1	Level 2	Level 3	Total
As at 31 March 2019				
Financial assets				
Measured at fair value through profit or loss *				
Investment in equity instruments	350	-	-	350
As at 31 March 2020				
Financial assets				
Measured at fair value through profit or loss *				
Investment in equity instruments	350	-	-	350

The carrying amount of cash and bank balances, trade receivables, loans, trade payables, borrowings and other receivables and payables are considered to be the same as their fair values due to their short term nature. The fair values of borrowings and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including own and counterparty credit risk.

*** Valuation techniques used to determine fair value**

Specific valuation techniques used to value financial instruments includes investment in equity investment valued at quoted closing price on stock exchange / other basis based on materiality.

43 Financial risk management objectives and policies

The Company is exposed to various financial risks. These risks are categorized into market risk, credit risk and liquidity risk. The Company's risk management is coordinated by the Board of Directors and focuses on securing long term and short term cash flows. The Company does not engage in trading of financial assets for speculative purposes.

(A) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises following types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk arising mainly from borrowings with floating interest rates. The Company is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Company manages the interest rate risks by maintaining a debt portfolio comprising a mix of fixed and floating rate borrowings.

At the reporting date, the interest profile of the Company's borrowings is as follows:

Exposure to interest rate risk

(Amount in Rs.)

	31 March 2020	31 March 2019
Fixed rate borrowings	17,36,61,454	22,80,50,422
Variable rate borrowings	4,70,36,13,806	8,43,38,45,715
Total borrowings	4,87,72,75,260	8,66,18,96,137

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

(Amount in Rs.)

	Increase/ decrease in basis points	Effect on profit before tax
31 March 2019		
Rs.	50 bp	(4,21,69,229)
Rs.	(50 bp)	4,21,69,229
31 March 2020		
Rs.	50 bp	(2,35,18,069)
Rs.	(50 bp)	2,35,18,069

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. As at each reporting date, the Company does not have exposure in foreign currency, therefore it is not exposed to currency risk.

A

(B) Credit risk

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligation. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, and by monitoring exposures in relations to such limits. The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented in the financial statements. The Company's major classes of financial assets are cash and cash equivalents, loans, term deposits, trade receivables and security deposits.

Cash and cash equivalents and term deposits with banks are considered to have negligible risk or nil risk, as they are maintained with high rated banks / financial institutions as approved by the Board of directors. Security deposits are kept with stock exchanges for meeting minimum base capital requirements. These deposits do not have any credit risk. The management has established accounts receivable policy under which customer accounts are regularly monitored. The Company has a dedicated risk management team, which monitors the positions, exposures and margins on a continuous basis.

Expected credit loss

A) Trade receivables

The Company applies the Ind AS 109 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance (ECL) for all trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics as follow:

- Receivable from Brokerage (Secured by collaterals mainly in form of Securities of listed Company)
- Receivable from Exchange (Unsecured)
- Receivable from Depository (Secured by collaterals mainly in form of Securities of listed Company)

Receivable from Exchange (Unsecured) : There are no historical loss incurred in respect of Receivable from exchange. Entire exposure/receivable as at each reporting period is received and settled within 7 days from reporting period. Therefore, no ECL is recognised in respect of receivable from exchange.

Receivable from Brokerage and depository: Company has large number of customer base with shared credit risk characteristics. As per policy of the Company, trade receivable to the extent not covered by collateral (i.e. unsecured trade receivable) is considered as default and are fully written off as bad debt against respective trade receivables and the amount of loss is recognised in the Statement of Profit and Loss. Subsequent recoveries of amounts previously written off are credited to the income statement as bad debts recovered. Trade receivable of the company are of short duration with credit period ranging up to maximum 30 days. In case of delay in collection, the Company has right to charges interest (commonly referred as delayed payment charges) on overdue amount for the overdue period. However, in case of receivable from depository, the Company doesn't have right to charge interest. Though credit period given to customer in respect of receivable from depository is very short, generally there is significant delay in ultimate collection. The Company has computed expected credit loss due to significant delay in collection. Incremental borrowing rate is considered as effective interest rate on these trade receivable for the purpose of computing time value loss.

	(Amount in Rs.)	
	As at 31 March 2020	As at 31 March 2019
Trade receivable		
Past due 1-30 days	26,00,96,336	1,93,73,63,822
Past due 31-60 days	1,42,60,824	3,39,22,897
Past due 61-90 days	38,47,641	1,80,09,019
Past due more than 90 days	12,15,27,258	16,80,62,447
Loss allowances	(1,32,28,174)	(1,83,22,917)
Carrying amount	38,65,03,885	2,13,90,35,268

Movements in the allowances for impairment in respect of trade receivables is as follows:

	(Amount in Rs.)	
	31 March 2020	31 March 2019
Opening Provision	1,83,22,917	1,64,78,131
Adjustments during the year	(50,94,743)	18,44,786
Closing provision	1,32,28,174	1,83,22,917

B) Loan against Margin Trading facilities:

In accordance with Ind AS 109, the Company applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The expected credit loss is a product of exposure at default (EAD), probability of default (PD) and Loss given default (LGD). The financial assets have been segmented into three stages based on the risk profiles, primarily based on past due.

Company has large number of customer base with shared credit risk characteristics. Loan against margin trading facilities are secured by collaterals. As per policy of the Company, loan against Margin trade facilities to the extent not covered by collateral (i.e. unsecured portion) is considered as default and are fully written off as bad debt against respective loan receivables and the amount of loss is recognised in the Statement of Profit and Loss. Subsequent recoveries of amounts previously written off are credited to the Statement of Profit and Loss as bad debts recovered.

As per Ind AS 109, the maximum period to consider when measuring expected credit losses is the maximum contractual period (including extension options) over which the entity is exposed to credit risk and not a longer period, even if that longer period is consistent with business practice. Therefore, the maximum period to consider when measuring expected credit losses for these loans is the maximum contractual period (i.e. on demand/one day).

For the computation of ECL, the loan against margin trading facilities are classified into three stages as follows:

Following table provides information about exposure to credit risk and ECL on Margin trading facility

Staging as per Ind AS 109	Loan receivable including interest
Stage 1	0 to 30 days past due
Stage 2	31 to 90 days past due
Stage 3	More than 90 days past due

The company does not have any loan book which may fall under stage 2 or stage 3.

ECL is computed as follow assuming that these loans are fully recalled by the Company at each reporting period:

EAD is considered as loan receivable including interest (net of write off).

PD is considered at 100% for all loans receivables being the likelihood that the borrower would not be able to repay in the very short payment period.

LGD is determined based on fair value of collateral held as at the reporting period. Unsecured portion is considered as LGD.

Collaterals

The Company holds collateral and other credit enhancements against certain of its credit exposures. The following table sets out the principal types of collateral held against different types of financial assets.

Instrument type	Percentage of exposure that is subject to collateral		Principal type of collateral held
	As at 31 March 2020	As at 31 March 2019	
Loans for Margin trading facility	98.76%	99.51%	Shares and securities

2

(C) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due.

The table below summarizes the maturity profile of the Company's financial liabilities:

(Amount in Rs.)

	0 - 1 year	1-2 year	2-3 year	3-4 year	Beyond 4 years	Total
31 March 2019						
Borrowings (Other than lease liability)	8,44,28,50,095	71,26,391	31,26,946	9,85,476	7,32,900	8,45,48,21,808
Trade payables	6,37,49,65,787	-	-	-	-	6,37,49,65,787

45 Capital management**Risk Management**

The Company manages its capital structure and makes necessary adjustments in light of changes in economic conditions and the requirement of financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders, issue new shares or raise / repay debt. The primary objective of the Company's capital management is to maximise the shareholders' value.

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximize the shareholder value and to ensure the Company's ability to continue as a going concern.

47 Subsequent Events

There were no significant events after the end of the reporting year which require any adjustment or disclosure in the financial statements.

48 COVID-19 outbreak was declared a pandemic by the World Health Organization on March 11, 2020. The Indian Government on March 24, 2020, announced a 21-day complete lockdown across the country, to contain the spread of the virus. The lockdown has since been extended with gradual relaxations. Stock Broking services, being part of Capital Market operations have been declared as essential services and accordingly, the Company faced no business interruption on account of the lockdown. There has been no material change in the controls or processes followed in the closing of the financial statements of the Company.

As at March 31, 2020, based on facts and circumstances existing as of that date, the Company does not anticipate any material uncertainties, which affect its liquidity position; and its ability to continue as a going concern. The ongoing COVID-19 situation may result in some changes in the overall economic and market conditions, which may inturn have an impact on the operations of the Company.

49 The financial statements of the company were authorised for issue in accordance with a resolution of the directors on 14 May 2020.

INDEPENDENT AUDITOR'S REPORT

To the Members of Angel Broking Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of Angel Broking Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") comprising of the consolidated Balance sheet as at March 31, 2020, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2020, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with [the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting

and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- ▶ Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

- (a) We did not audit the financial statements and other financial information, in respect of five subsidiaries, whose Ind AS financial statements include total assets of Rs. 1,47,98,51,456 as at March 31, 2020, and total revenues of Rs 23,97,81,604 and net cash inflows of Rs 13,39,26,475 for the year ended on that date. These Ind AS financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of such other auditors.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

- (a) We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;
- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, none of the directors of the Group's companies, incorporated in India, is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements of the Holding Company and its subsidiary companies, incorporated in India, refer to our separate report in "Annexure" to this report;
- (g) In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, the managerial remuneration for the year ended March 31, 2020 has been paid/provided by the Holding Company and its subsidiaries incorporated in India to their directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, as noted in the 'Other matter' paragraph:
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on its consolidated financial position of the Group in its consolidated Ind AS financial statements - Refer Note 38 to the consolidated Ind AS financial statements;
 - ii. The Group did not have any material foreseeable losses in long-term contracts including derivative contracts during the year ended March 31, 2020;

S.R. BATLIBOI & CO. LLP

Chartered Accountants

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries incorporated in India during the year ended March 31, 2020.

**ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE
CONSOLIDATED IND AS FINANCIAL STATEMENTS OF ANGEL BROKING LIMITED**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the
Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated Ind AS financial statements of Angel Broking Limited as of and for the year ended March 31, 2020, we have audited the internal financial controls over financial reporting of Angel Broking Limited (hereinafter referred to as the "Holding Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on, the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Ind AS Financial Statements

A company's internal financial control over financial reporting with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements and such internal financial controls over financial reporting with reference to these consolidated financial statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements insofar as it relates to these five subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

S.R. BATLIBOI & CO. LLP

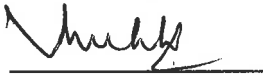

Chartered Accountants

We also have audited, in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India as specified under section 143(10) of the Act, the consolidated financial statements of the Holding Company, which comprise the Consolidated Balance Sheet as at March 31, 2020, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated Ind AS financial statements, including a summary of significant accounting policies and other explanatory information, and our report dated May 14, 2020 expressed an unqualified opinion.

Angel Broking Limited

(Formerly known as Angel Broking Private Limited)

Consolidated Cash Flow Statement for the year ended 31 March 2020

(Amount in Rs.)

	Year ended 31 March 2020	Year ended 31 March 2019
A. Cash flow from operating activities		
Profit before tax	1,14,84,76,885	1,24,42,48,219
Adjustments for:		
Depreciation and amortisation expense	22,12,40,733	20,00,35,263
Gain on cancellation of lease	(58,98,868)	(4,26,201)
Expense on Employee Stock option scheme	1,99,78,432	1,43,14,396
Income from leased property	(8,06,400)	(6,27,000)
Interest expense on borrowings	43,63,52,842	62,49,13,338
Interest on Income tax refund	(17,62,537)	(13,42,896)
Provision on expected credit loss on trade receivables	4,95,571	68,27,791
Interest income on financial assets	(1,13,25,034)	(87,72,861)
Dividend Income on Mutual fund	(2,14,90,160)	(41,26,947)
Bad debts written off	37,57,55,717	14,50,72,603
Loss / (Profit) on sale of property, plant and equipments	62,83,504	(85,691)
(Profit) / Loss on financial instruments designated at fair value through profit or loss	(2,48,61,555)	(6,92,807)
Provision on expected credit loss on loans	9,82,281	-
Operating profit before working capital changes	2,14,34,21,411	2,21,93,37,207
Changes in working capital		
Increase/ (decrease) in trade payables	3,01,73,28,117	23,11,07,144
(Increase)/ decrease in inventories	3,779	1,09,812
Increase/ (decrease) in other financial liabilities	(5,35,49,368)	11,51,60,417
Increase/ (decrease) in other non financial liabilities	4,97,46,418	2,03,42,286
Increase/ (decrease) in provisions	18,83,296	44,24,749
(Increase)/ decrease in trade receivables	1,38,54,99,113	(72,52,01,666)
(Increase)/ decrease in loans	4,81,03,20,221	3,30,80,57,227
(Increase)/ decrease in Other Bank Balances	(2,61,31,20,264)	2,82,66,41,410
(Increase)/ decrease in other financial assets	(2,02,20,17,125)	(39,55,00,090)
(Increase)/ decrease in other non-financial assets	63,14,327	(2,17,12,597)
Cash generated from operations	6,72,58,29,925	7,58,27,65,899
Income tax paid	(29,28,62,433)	(49,51,75,662)
Net cash generated from operating activities (A)	6,43,29,67,492	7,08,75,90,237
B. Cash flow from Investing activities		
Purchase of property, plant and equipment, intangible assets	(12,61,76,981)	(11,63,56,278)
Proceeds from sale of property, plant and equipment, intangible assets	12,49,956	13,67,419
Income from lease property	8,06,400	6,27,000
Dividend Income from mutual funds	2,14,90,160	41,26,947
Payment for purchase of mutual funds	(17,00,05,00,000)	(16,61,80,627)
Proceeds from sale of mutual fund and shares	16,82,18,05,144	8,27,93,091
Net cash generated from / (used) in investing activities (B)	(28,13,25,321)	(19,36,22,448)
C. Cash flow from Financing activities		
Proceeds/(repayments) of borrowings	(3,76,39,66,074)	(2,74,39,84,315)
Proceeds from vehicle loan	1,03,74,000	-
Interest paid on borrowings	(43,63,52,842)	(62,49,13,338)
Interim Dividend Paid	(19,43,86,508)	(19,43,86,508)
Dividend Tax Paid	(3,96,02,174)	(3,99,56,720)
Repayment of lease liabilities	(6,49,63,504)	(5,14,64,256)
Net cash generated from / (used) in financing activities (C)	(4,48,88,97,103)	(3,65,47,05,137)

2

Net increase in cash and cash equivalents (A+B+C)	1,66,27,45,068	3,23,92,62,652
Cash and cash equivalents at the beginning of the year	4,46,96,19,078	1,23,03,56,426
Cash and cash equivalents at the end of the year	6,13,23,64,146	4,46,96,19,078
Cash and cash equivalents comprise		
Balances with banks		
On current accounts	3,61,19,37,613	2,99,50,63,225
Fixed Deposits with original maturity less than 3 months*	2,51,43,85,507	1,47,07,45,224
Cash on hand	6,54,877	8,27,270
Cheques on hand	53,86,149	29,83,359
Total cash and bank balances at end of the year	6,13,23,64,146	4,46,96,19,078

* Includes Fixed Deposits under lien with stock exchange as security deposits and minimum base capital requirements / arbitration matters amounting to Rs. 15,71,799 (31 March 2019 Rs. 50,14,90,574).

1 Corporate information

Angel Broking Limited (Formerly known as Angel Broking Private Limited), ("ABL" or the 'Company') is the holding Company of Angel Group. The Company has converted into public limited company w.e.f 28 June 2018 via a Certificate of Incorporation issued by Registrar of Companies, Mumbai, Maharashtra.

The Company is a diversified financial services company and along-with its subsidiaries is primarily engaged in the business of stock, commodity and currency broking, Institutional broking, providing margin trading facility, depository services and distribution of mutual funds, lending as a Non-Banking Finance Company (Non - deposit accepting) and corporate agents of insurance companies. The Company through its other subsidiaries, is engaged in offering health and allied fitness services, software consultancy and annual maintenance services.

The Company is a member of National Stock Exchange of India Limited (NSE), Bombay Stock Exchange Limited (BSE), National Commodities and Derivatives Exchange Limited (NCDEX), Multi Commodity Exchange of India Limited (MCX), Metropolitan Stock Exchange of India Limited (MSEI) and a depository participant with Central Depository Services (India) Limited (CDSL). The Company is engaged in the business of stock, currency and commodity broking, margin trading facility, depository services and distribution of mutual funds, to its clients; and earns brokerage, fees, commission and interest income thereon. The Company has also been providing portfolio management services. The registered office address of the company is G-1, ground floor, Akruiti Trade Centre, road no.-7, MIDC, Andheri (East) Mumbai 400093.

2 Basis of Preparation and presentation and Significant accounting policy

The Financial Statements of the Company comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

For all periods up to and including the year ended 31 March 2019, the Company prepared its financial statements in accordance with Companies (Accounting Standards) Rules, 2006 (as amended) notified under the Act read with Rule 7 of the Companies (Accounts) Rules 2014 (as amended), guidelines issued by the RBI and other generally accepted accounting principles in India (collectively referred to as 'Indian GAAP' or 'Previous GAAP').

The transition to Ind AS has been carried out in accordance with Ind AS 101 First Time adoption of Indian Accounting Standards. Accordingly, the impact of transition has been recorded in the opening reserves as at 01 April 2018 and the comparative previous year has been restated/reclassified.

An explanation of how the transition to Ind AS from the previous GAAP has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 4. Accounting policies have been consistently applied to all the financial year presented in the financial statements, including the preparation of the opening Ind AS balance sheet as at 01 April 2018 being the 'date of transition' to Ind AS, except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

The Balance Sheet, the Statement of Changes in Equity and the Statement of Profit and Loss are presented in the format prescribed under Division III of Schedule III of the companies Act, as amended from time to time, for Non-Banking Financial Companies ('NBFCs') that are required to comply with Ind AS. The Statement of Cash Flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flows.

The financial statements have been prepared under the historical cost convention and on accrual basis, except for certain financial assets and liabilities, defined benefit- plan liabilities and share based payments being measured at fair value.

These financial statements are presented in Indian Rupees (INR)/(Rs.), which is also its functional currency and all values are rounded to the nearest rupee. Except when otherwise indicated.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 March 2020. The Company consolidates a subsidiary when it controls it. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March 2020. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

(a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

(b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.

(c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction.

Significant accounting policy

2.1 Revenue Recognition

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind AS.

The Group recognises revenue from contracts with customers based on a five step model as set out in Ind 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Group satisfies a performance obligation.

- (i) Revenue from contract with customer is recognised point in time when performance obligation is satisfied. Income from broking activities is accounted for on the trade date of transactions.
- (ii) Dividend income is recognised when the right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.
- (iii) Revenue from Depository services have been accounted at point in time or over a period of time as per terms and conditions with the client.
- (iv) Portfolio Management Fees are accounted over a period of time as follows:
Performance obligations are satisfied over a period of time and portfolio management fees are recognized in accordance with the Portfolio Management Agreement entered with respective clients i.e., as per predecided percentage over the portfolio managed by company.
- (v) Revenue from contract with customer is recognised point in time when performance obligation is satisfied i.e., as per pre decided percentage over the portfolio managed by group. An entity shall recognise a refund liability if the entity receives consideration from a customer and expects to refund some or all of that consideration to the customer.
- (vi) Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.
The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs).
- (vii) Delayed payment charges (Interest on late payments) are accounted at a point in time of default.
- (viii) Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Membership fees and Personal training fees are recognised as income over the period of income.
- (ix) Revenue from software consultancy charges are accounted over a period of time as per terms and conditions.
- (x) Syndication fees are accrued based on completion of assignments in accordance with terms of understanding.
- (xi) In respect of other heads of Income it is accounted to the extent it is probable that the economic benefits will flow and the revenue can be reliably measured, regardless of when the payment is being made.

2.2 Property, plant and equipment

(i) Recognition and measurement

Tangible property, plant and equipment are stated at cost less accumulated depreciation and impairment, if any. The cost of property, plant and equipment comprise purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

(ii) Subsequent expenditure

Subsequent expenditure incurred on assets put to use is capitalized only when it increases the future economic benefits/functioning capability from/of such assets.

(iii) Depreciation, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives in the manner prescribed in Schedule II of the Act. The estimated lives used are noted in the table below:-

Asset Class	Useful life of Asset (In Years)
Buildings	60
Office equipments	5
Air Conditioner	5
Computer Equipments	3 to 6
Furniture and Fixtures	10
VSAT Equipments	5
leasehold Improvements	Amortised over the primary period of lease
Gym Equipments	10
Vehicles	8

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. Changes in the expected useful life are accounted for by changing the depreciation period or methodology, as appropriate, and treated as changes in accounting estimates.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised.

The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

For transition to Ind AS, the Group has elected to continue with carrying value of its property, plant and equipment recognised as of 01 April 2018 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.3 Investment property

Investment property is property held to earn rentals and for capital appreciation. Investment Property are measured initially at cost including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model. An Investment property is derecognised upon disposal or when the investment property are permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de-recognition of the property (calculated as the difference between the disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which property is derecognised.

For transition to Ind AS, the Group has elected to continue with carrying value of its investment property recognised as of April 1, 2018 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.4 Intangible assets

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Company. Software and system development expenditure are capitalised at cost of acquisition including cost attributable to readying the asset for use. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses. The useful life of these intangible assets is estimated at 5 years with zero residual value. Any expenses on such software for support and maintenance payable annually are charged to the statement of profit and loss.

For transition to Ind AS, the Company has elected to continue with carrying value of its intangible assets recognised as of 01 April 2018 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

The residual values, useful lives and methods of amortisation are reviewed at each financial year end and adjusted prospectively, if appropriate. Changes in the expected useful life are accounted for by changing the depreciation period or methodology, as appropriate, and treated as changes in accounting estimates.

2.5 Financial instruments

(i) Date of recognition

Financial assets and financial liabilities are recognised in the group's balance sheet when the Group becomes a party to the contractual provisions of the instrument.

(ii) Initial measurement

Financial assets and liabilities, with the exception of loans, debt securities, deposits and borrowings are initially recognised on the trade date, i.e., the date that the Group becomes a party to the contractual provisions of the instrument. Recognised financial instruments are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2

(iii) Classification and subsequent measurement

(A) Financial assets

Based on the business model, the contractual characteristics of the financial assets and specific elections where appropriate, the Group classifies and measures financial assets in the following categories :

- Amortised cost
- Fair value through other comprehensive income ('FVOCI')
- Fair value through profit or loss ('FVTPL')

(a) Financial assets carried at amortised cost

A financial assets is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL :

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows ('Asset held to collect contractual cash flows'); and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ('SPPI') on the principal amount outstanding.

After initial measurement and based on the assessment of the business model as asset held to collect contractual cash flows and SPPI, such financial assets are subsequently measured at amortised cost using effective interest rate ('EIR') method. Interest income and impairment expenses are recognised in profit or loss. Interest income from these financial assets is included in finance income using the EIR method. Any gain and loss on derecognition is also recognised in profit or loss.

The EIR method is a method of calculating the amortised cost of a financial instrument and of allocating interest over the relevant period. The EIR is the rate that exactly discounts estimated future cash flows (including all fees paid or received that form an integral part of the EIR, transaction costs and other premiums or discounts) through the expected life of the instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

(b) Financial assets at fair value through other comprehensive income

Financial assets that are held within a business model whose objective is both to collect the contractual cash flows and to sell the assets, ('Contractual cash flows of assets collected through hold and sell model') and contractual cash flows that are SPPI, are subsequently measured at FVOCI. Movements in the carrying amount of such financial assets are recognised in Other Comprehensive Income ('OCI'), except interest / dividend income which is recognised in profit and loss. Amounts recorded in OCI are subsequently transferred to the statement of profit and loss in case of debt instruments however, in case of equity instruments it will be directly transferred to reserves. Equity instruments at FVOCI are not subject to an impairment assessment.

(c) Financial assets at fair value through profit and loss

Financial assets, which do not meet the criteria for categorization as at amortized cost or as FVOCI, are measured at FVTPL. Subsequent changes in fair value are recognised in profit or loss. The Group records investments in equity instruments and mutual funds at FVTPL.

(B) Financial liabilities and equity instrument

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(a) Equity instrument

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group is recognised at the proceeds received, net of directly attributable transaction costs.

(b) Financial liabilities

Financial liabilities are measured at amortised cost. The carrying amounts are initially recognised at fair value and subsequently determined based on the EIR method. Interest expense is recognised in profit or loss. Any gain or loss on de-recognition of financial liabilities is also recognised in profit or loss. The company does not have any financial liability which are measured at FVTPL.

(iv) Reclassification

Financial assets are not reclassified subsequent to their initial recognition, apart from the exceptional circumstances in which the Group acquires, disposes of, or terminates a business line or in the period the Group changes its business model for managing financial assets. Financial liabilities are not reclassified.

(v) Derecognition

(A) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is derecognised when:

- The contractual rights to receive cash flows from the financial asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset and the Group has transferred substantially all the risks and rewards of the asset, or the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

If the Group neither transfers nor retains substantially all of the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for the amount it may have to pay.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss (except for equity instruments measured at FVOCI).

2

2

(B) Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying value of the original financial liability and the new financial liability with modified terms is recognised in profit or loss.

(vi) Impairment of financial assets

A) Trade receivables

The Group applies the Ind AS 109 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance (ECL) for all trade receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on average of historical loss rate adjusted to reflect current and available forward-looking information affecting the ability of the customers to settle the receivables. The Group has also computed expected credit loss due to significant delay in collection

B) Loans

In accordance with Ind AS 109, the Group applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The expected credit loss is a product of exposure at default (EAD), probability of default (PD) and Loss given default (LGD). The financial assets have been segmented into three stages based on the risk profiles. At each reporting date, the Group assesses whether the loans have been impaired. The Group is exposed to credit risk when the customer defaults on his contractual obligations. For the computation of ECL, the loan receivables are classified into three stages based on the default and the aging of the outstanding as follows:

PD	The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.
EAD	The Exposure at Default is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.
LGD	The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

Stage 1 : Loan receivable including interest overdue for less than 30 days past due.

Stage 2 : Loan receivable including interest overdue between 30-90 days past due.

Stage 3 : Loan receivable including interest overdue for more than 90 days past due.

For the purpose determining the stages as per Ind AS 109:

(i) Loan given (principal amount) is considered as overdue, from the date when the Group recalls and pending repayment from customer.

(ii) In case loan given (principal amount) is not recalled, these loans are considered as not due.

If the amount of an impairment loss decreases in a subsequent period, and the decrease can be related objectively to an event occurring after the impairment was recognised, the excess is written back by reducing the loan impairment allowance account accordingly. The write-back is recognised in the statement of profit and loss.

C) Other financial assets:

For recognition of impairment loss on financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

2.6 Leases

Group as a lessee

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the Group assess whether (i) the contract involves the use of an identified assets ; (ii) the Group has substantially all the economic benefits from use of the assets through the period of the lease and (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognises a right-of-use assets (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 month or less (short term leases) and low value leases. For these short term and low value leases, the Group recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

8

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease, less any lease incentives received. Subsequently, the right-of-use assets is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

For lease liabilities at inception, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

Lease liability has been included in borrowing and ROU asset has been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Group as a Lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the term of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

For operating leases, rental income is recognised on a straight line basis over the term of the relevant lease.

2.7 Cash and cash equivalents

Cash and cash equivalents includes cash at banks and on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Group's cash management

2.8 Impairments of Non-financial assets

The Group assesses at each balance sheet date whether there is any indication that an asset may be impaired. An asset is impaired when the carrying amount of the asset exceeds its recoverable amount. An impairment loss is charged to the Statement of Profit and Loss in the period in which an asset is identified as impaired. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

2.9 Retirement and other employee benefits

(i) Provident fund

Retirement benefit in the form of provident fund, is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

(ii) Gratuity

Every employee is entitled to a benefit equivalent to 15 days salary last drawn for each completed year of service in line with The Payment of Gratuity Act, 1972. The same is payable at the time of separation from the company or retirement, whichever is earlier. The benefit vest after five years of continuous service.

The company's gratuity scheme is a defined benefit plan. The company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior period. Such benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted.

The present value of the obligation under such benefit plan is determined based on actuarial valuation using the Projected Unit credit Method which recognizes each period of services as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at present values of estimated future cash flows. The discounted rates used for determining the present value are based on the market yields on Government Securities as at the balance sheet date.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

(iii) Compensated absences

The employees of the Company are entitled to compensated absences as per the policy of the Company. The Company recognises the charge to the statement of profit and loss and corresponding liability on account of such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing compensated absences are determined using the projected unit credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in statement of Profit and Loss.

(iv) Presentation

For the purpose of presentation of defined benefit plans and other long term employee benefits, the allocation between current and non-current has been made as determined by an actuary.

(v) Share based payments

Equity-settled share-based payments to employees that are granted are measured by reference to the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the vesting conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit and loss, with a corresponding adjustment to equity.

8

2.10 Provisions, contingent liabilities and contingent assets

A provision is recognised when the Company has a present obligation as a result of a past event and it is probable that an outflow of embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements. Provisions are reviewed at each balance sheet date and adjusted to effect current management estimates. Contingent liabilities are recognised when there is possible obligation arising from past events.

2.11 Income Taxes

Income tax expense comprises current and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to items recognised directly in equity or in OCI.

(i) Current tax

Current tax is measured at the amount expected to be paid in respect of taxable income for the year in accordance with the Income Tax Act, 1961. Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset only if the Group has a legally enforceable right to set off the recognised amounts, and it intends to realise the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred tax

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax assets arising mainly on account of carry forward losses and unabsorbed depreciation under tax laws are recognised only if there is reasonable certainty of its realisation, supported by convincing evidence.

Deferred tax assets on account of other temporary differences are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted at the Balance Sheet date. Changes in deferred tax assets / liabilities on account of changes in enacted tax rates are given effect to in the standalone statement of profit and loss in the period of the change. The carrying amount of deferred tax assets are reviewed at each Balance Sheet date.

Deferred tax assets and deferred tax liabilities are off set when there is a legally enforceable right to set-off assets against liabilities representing current tax and where the deferred tax assets and deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

2.12 Earning per share (basic and diluted)

The Group reports basic and diluted earnings per equity share. Basic earnings per equity share have been computed by dividing net profit/loss attributable to the equity share holders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share have been computed by dividing the net profit attributable to the equity share holders after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

2.13 Borrowing costs

Expenses related to borrowing cost are accounted using effective interest rate. Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

2.14 Goods and services tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax paid, except when the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables, respectively, in the balance sheet.

2.15 Foreign currency

Transactions in foreign currencies are recorded at the rate of exchange prevailing on the date of the transaction. Exchange differences arising on settlement of revenue transactions are recognised in the statement of profit and loss. Monetary assets and liabilities contracted in foreign currencies are restated at the rate of exchange ruling at the Balance Sheet date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

2.16 Segment

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicator sby business segments and geographic segments.

3 Critical accounting estimates and judgements

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognised in the periods in which the Group becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. Following are estimates and judgements that have significant impact on the carrying amount of assets and liabilities at each balance sheet:

3.1 Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI (Solely Payments of Principal and Interest) and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed. The Group monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the standalone statement of profit and loss in the period in which they arise.

3.2 Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility. For further details about determination of fair value please see Note 46.

Some of the group's assets and liabilities are measured at fair value for financial reporting purposes. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements under Ind AS are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at measurement date
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Group can access at measurement date

3.3 Effective Interest Rate (EIR) method

The group's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the financial instruments.

This estimation, by nature, requires an element of judgement regarding the expected behavior and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/expense that are integral parts of the instrument.

3.4 Provisions and other contingent liabilities

The Group operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the group's business.

When the Group can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Group records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Group takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

3.5 Share based payments

Estimating fair value for share based payment requires determination of the most appropriate valuation model. The estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share based payments transactions are discussed in Note 41.

3.6 Expected Credit loss

When determining whether the risk of default on a financial instruments has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the group's historical experience and credit assessment and including forward looking information.

The inputs used and process followed by the Group in determining the ECL have been detailed in Note 47.

3.7 Deferred Tax

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences become deductible. The Group considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realisable, however, could be reduced in the near term if estimates of future taxable income during the carry-forward period are reduced.

3.8 Defined benefit plans

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

3.9 Leases

Ind AS 116 defines a lease term as the non-cancellable period for which the lessee has the right to use an underlying asset including optional periods, when an entity is reasonably certain to exercise an option to extend (or not to terminate) a lease. The Group consider all relevant facts and circumstances that create an economic incentive for the lessee to exercise the option when determining the lease term. The option to extend the lease term are included in the lease term, if it is reasonably certain that the lessee will exercise the option. The Group reassess the option when significant events or changes in circumstances occur that are within the control of the lessee.

4 Reconciliations

(A) Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables presents the reconciliation from regrouped previous GAAP/Indian GAAP to Ind AS.

(a) Reconciliation of equity as at 01 April 2018

(Amount in Rs.)

	Notes to first-time adoption	Indian GAAP*	Adjustments	Ind AS
ASSETS				
Financial Assets				
Cash and cash equivalents		1,23,03,56,426	-	1,23,03,56,426
Bank Balance other than cash and cash equivalent		8,21,67,36,091	-	8,21,67,36,091
Trade Receivables	(v)	1,58,46,30,191	(1,64,78,136)	1,56,81,52,055
Loans	(iv),(vi)	10,92,50,22,266	(6,50,553)	10,92,43,71,713
Investments	(i)	5,62,17,753	87,98,530	6,50,16,283
Other Financial assets	(ii)	29,57,35,674	(53,62,605)	29,03,73,069
Non-financial Assets				
Inventories		5,64,420	-	5,64,420
Tax assets (Net)		1,52,68,945	-	1,52,68,945

Total comprehensive income as per Ind AS		79,57,88,408

(B) Notes to first-time adoption

(i) Fair valuation of equity shares and mutual funds

Under Indian GAAP, the Group has recognised investments in Equity Shares at lower of cost or fair value. Under Ind AS, such investments are measured at fair value through profit and loss account. Difference between the instruments' fair value between 31 March 2019 and 31 March 2018 amounted to Rs. 87,98,530 has been recognised in the statement of Profit and Loss.

(ii) Security deposit

Under Indian GAAP, interest-free security deposit given are recorded at their transaction value. Under Ind AS, all financial assets are required to be recognized at fair value. Accordingly the Company has fair valued these security deposits under Ind AS. Difference between the fair value and transaction value of the security deposit has been recognized in "Right of use asset" and "Prepaid expense". Due to this security deposit is decreased by Rs. 96,52,504; Right of use asset is increased by Rs. 91,23,196 and Prepaid expense is reduced by Rs. 24,794. The profit for the year ended on 31 March 2019 is reduced by Rs. 104,712 due to recognition of right of use asset over the lease term amounting to Rs. 25,49,040 and amortisation of prepaid expense amounted Rs. 7,99,325 and by notional interest income of Rs. 232,43,653 recognised on security deposits of the tenure of security deposit given.

(iii) Amortisation of borrowing cost

Under the Indian GAAP, transaction costs pertaining to loans were charged to the Statement of Profit and Loss as and when incurred. As required under the IND AS 109 transactions costs incurred towards origination of borrowings have been deducted from the carrying amount of borrowings on initial recognition. Accordingly loan from bank is debited and retaining earning is credited by Rs. 98,109 as on 31 March 2019. These costs are amortised over the tenure of the borrowing as interest expense and charged to statement of profit and loss amounted Rs. 57,742 for the year ended 31 March 2019.

(iv) Loan to employees measured at amortised cost

Under Previous GAAP, the carrying value of Interest free loan to director was recognised at the principal amount receivable. Under Ind AS, interest free loan being a financial asset is required to be recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. The difference between fair value of loan and the carrying value of loan is recognised as prepaid employee cost which is disclosed under "Other non-financial assets". Accordingly, loan to employee is credited and prepaid expense is debited by INR 7,69,259 as on 31 March 2019.

Subsequently, unwinding of interest has been recognised of Rs. 5,46,201 as interest income and prepaid employee cost has been amortized of Rs.3,68,961 as other expense in the Statement of Profit and Loss for the year ended 31 March 2019.

(v) Expected credit loss on trade receivable

In the financial Statements prepared under Previous GAAP, the carrying value of trade receivable was recognised at the principal amounts receivable customer. Under Ind AS expected credit loss was provided for loss in time value of money. The difference between gross trade receivable less present value of gross trade receivable amounted Rs. 1,83,22,915 as at 31 March 2019 is recognised as expected credit loss provision.

(vi) Expected credit loss on Loan receivable

Under Indian GAAP, the Company recognized impairment on loans based on the ageing of the due balance. Under Ind AS, the Company applies the expected credit loss (ECL) model for measurement and recognition of impairment loss. The loans are categorized into three stages and the 12 month or lifetime expected loss as applicable is calculated. The provision made in erstwhile Indian GAAP has been reversed and ECL is recognised on gross amount of loan receivable.

This has resulted in increase in the retained earnings by Rs. 19,84,809 in 31 March 2019 and credit in the statement of profit and loss of Rs. 18,66,102 for the year ended 31 March 2019.

(vii) Deferred Revenue

Under Previous GAAP, personal training fee and membership fees were recognized upfront. However, as per Ind AS 115 the income on contract with customers needs to be recognized over the period of performance obligation. Hence, the income has been reduced by Rs. 1,08,26,953 for the year ended 31 March 2019.

(viii) Operating Lease capitalised as per Ind AS 116

Initial recognition and measurement

The company has elected the 'modified retrospective approach'.

Subsequent measurement:

The lease liability is measured in subsequent periods using the effective interest rate method. The right-of-use asset is depreciated using straight-line basis in which the entity expects to consume the right-of-use asset.

As per para D9B of Ind AS 101 Company while recognising lease liabilities and right-of-use assets, has applied following approach to all of its leases, to measure a lease liability at the date of transition to Ind AS. Company has measured lease liability at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate at the initial application date of Ind AS. Right of use asset has been measured as lease liability adjusted for prepaid rent at the initial application date of Ind AS.

Ind AS 116 is applicable to the Company from 1 April 2019. An entity is required to use the same accounting policies in its opening Ind AS Balance Sheet and throughout all periods presented in its first Ind AS financial statements. Those accounting policies are required to comply with each Ind AS effective at the end of its first Ind AS reporting period.

"The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.
4. Applied the practical expedient to grand father the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases.

Consequent to this, the right to use asset is increased by Rs. 26,51,80,393 as at 31 March 2019. Lease liability is increased by Rs. 26,91,28,139 as at 31 March 2019.

(ix) Provision for variable consideration

As per Ind AS 115, An entity shall recognise a refund liability if the entity receives consideration from a customer and expects to refund some or all of that consideration to the customer. A refund liability is measured at the amount of consideration received (or receivable) for which the entity does not expect to be entitled (i.e. amounts not included in the transaction price). Consequently the amount recognised in provision stands at Rs. Nil as at 31 March 2019. For the year ended 31 March 2019, the profit has been increased by Rs. 4,84,109.

(x) Fair value of Employee stock option

Under previous GAAP, the Company has not recognised for the share-based payment arrangement as the exercise price was equivalent to the fair value of share price. Under Ind AS, the Group has opted to account for the unvested options for comparative period. Accordingly, the grant date fair value of equity settled options have been recognised as an expense over the vesting period in the statement of profit or loss with a corresponding increase being made to Equity-Settled share-based payment reserve. Thus, profit for the year ended 31 March 2019 has been decreased by Rs. 1,43,14,396.

(xi) Actuarial gain/loss

Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurement and losses, are recognised in other comprehensive income. Thus, employee benefits expense is reduced by Rs. 39,06,237 and is recognised in other comprehensive income during the year ended 31 March 2019. The related deferred tax expense of Rs. 13,59,282 for the year ended 31 March 2019 has also been reclassified from Profit and loss account to other comprehensive income.

(xii) Deferred Tax

In the financial statements prepared under Previous GAAP, deferred tax was accounted as per the income statement approach which required creation of deferred tax asset/liability on temporary differences between taxable profit and accounting profit. Under Ind AS, deferred tax is accounted as per the Balance Sheet approach which requires creation of deferred tax asset/liability on temporary differences between the carrying amount of an asset/liability in the Balance Sheet and its corresponding tax base. Consequently deferred tax assets increased by Rs. 220,90,029 as on 31 March 2019.

8

(xiii) **Interest free loan taken**

In the financial statements prepared under previous GAAP, the carrying value of Interest free loan was recognised at the principal amounts payable by the borrower. Under Ind AS, Interest free borrowing being a financial liability is required to be recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

The unwinding of interest amounted Rs. 4,24,536 is charged to statement of profit and loss for the year ended 31 March 2019.

(xiv) **Investment Property**

Under the previous GAAP, investment properties were presented as part of property, plant and equipment. Under Ind AS, investment properties are required to be separately presented on the face of the balance sheet. For the year ended 31 March 2019, depreciation on investment property has been reclassified amounted Rs. 26,786.

(xv) **Cash flow Statement**

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended 31 March 2019 as compared with the previous GAAP.

(C) **Optional exemptions and Mandatory exception**

Set out below are the Ind AS 101 optional exemptions availed as applicable and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

(i) **Optional Exemptions availed**

(a) **Deemed cost**

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment, intangible assets and Investment property as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption is also applicable for intangible assets and Investment property.

Accordingly, the Company has elected to measure all of its property, plant and equipment, intangible assets and Investment property at their previous GAAP carrying value.

(b) **Business Combination**

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. During the year 2017-2018 Angel Commodities Broking Private Limited (ACBPL) merged with Angel Broking Limited and the Group has availed the said exemption and elected to apply Ind AS 103 prospectively to business combinations occurring after its transition date. Accordingly business combinations occurring prior to the transition date have not been restated.

(c) **Revenue from contracts with customers**

The Group has availed the following practical expedients in applying the standard retrospectively:

- For completed contracts within the same annual reporting period, no restatement has been done;
- For completed contracts that have variable consideration, the Group has used the transaction price at the date the contract was completed rather than estimating variable consideration amounts in the comparative reporting periods; and
- For all reporting periods presented before the beginning of the first Ind AS reporting period, no disclosures of the amount of transaction price allocated to the remaining performance obligations have been done.

(ii) **Mandatory exceptions**

(a) **Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies).

Ind AS estimates as at 1 April 2018 and 31 March 2019 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Group made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVPL or FVOCI;
- Impairment of financial assets based on expected credit loss model.

(b) **Classification and measurement of financial assets**

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

(c) **De-recognition of financial assets and liabilities**

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions. The Group has applied the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

(d) **Impairment of financial assets**

The company has applied the impairments requirement of Ind AS 109 retrospectively; however as permitted by Ind AS 101, it has used the reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments which were initially recognised and compare that to the credit risk at the date of transition to Ind AS.

Income arising from investment properties before depreciation	6,63,883	5,06,896
Depreciation	(26,787)	(26,786)
Income arising from investment properties (Net)	6,37,096	4,80,110

(C) Measurement of fair values

(i) Fair value hierarchy

These fair value of investment property has been determined by an accredited independent valuer. The fair value measurement for the property to be valued is residential flat which is the highest and best use, been categorized as a level 2 fair value based on the inputs to the valuation technique. These inputs include comparable sale instances for Market Approach and Comparable Rental Instances for Income Approach.

2

Angel Broking Limited
(Formerly known as Angel Broking Private Limited)

Consolidated Accounting Policies for the year ended 31 March 2020

(ii) Valuation technique

For the purpose of valuation, the primary valuation methodology used is Market Approach, as the best evidence of fair value is current prices in an active market for similar properties and cross checked by Income Capitalisation Approach. The market rate for sale/purchase of similar assets is representative of fair values. The property to be valued is at a location where active market is available for similar kind of properties. Income capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate market-based yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

(D) Premises given on operating lease

The Group's investment properties consist of residential property in India given on cancellable lease for a period of 12 month.

(E) The total future minimum lease rentals receivable at the Balance Sheet date is as under:

	(Amount in Rs.)		
	31 March 2020	31 March 2019	01 April 2018
For a period not later than one year	-	-	-
For a period later than one year and not later than five years	-	-	-
For a period later than five years	-	-	-

(F) The Group has availed the deemed cost exemption as per IND AS 101 in relation to the investment property as on the date of transition (1 April 2018) and hence the net block carrying amount has been considered as the gross block carrying amount on that date. Refer note below for the gross block value and the accumulated depreciation on 1 April 2018 under the previous GAAP.

	(Amount in Rs.)
Gross Block	
Accumulated Depreciation	15,96,131
Deemed cost as on 01 April 2018	2,63,248
	13,32,883

Nature and purpose of reserves

(A) General Reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. This reserve can be utilised only in accordance with the specified requirements of Companies Act, 2013.

Angel Broking Limited

(Formerly known as Angel Broking Private Limited)

Consolidated Accounting Policies for the year ended 31 March 2020

(B) Securities Premium

Securities premium is used to record the premium received on issue of shares. The reserve can be utilised only for limited purposes in accordance with the provisions of the Companies Act, 2013.

(C) Retained earnings

Retained earnings are the profits that the Company has earned till date, less any transfers to generate reserve, dividends or other distributions paid to Shareholders. It also includes remeasurement gains and losses on defined benefit plans recognised in other comprehensive income (net of taxes).

(D) Statutory Reserve

As required by section 45-IC of the RBI Act 1934, the Group maintains a reserve fund and transfers there in a sum not less than twenty per cent of its net profit every year as disclosed in the profit and loss account and before any dividend is declared. The Group cannot appropriate any sum from the reserve fund except for the purpose specified by Reserve Bank of India from time to time.

(E) Capital Reserve

Capital reserve is utilised in accordance with provision of the Act.

(F) Equity-Settled share-based payment reserve

This reserve is created by debiting the statement of profit and loss account with the value of share options granted to the employees by the Company. Once shares are issued by the Company, the amount in this reserve will be transferred to Share capital, Securities premium or retained earnings.

(G) Impairment reserve

This reserve represents the difference of impairment allowance under ind AS 109 and provision required under IRACP (Income Recognition, Asset classification and Provisioning). This impairment reserve should not be reckoned for regulatory capital. Further, no withdrawals are permitted from this reserve without the prior permission from the Department of Supervision, RBI.

Above disputed income tax demands does not include interest u/s 234B and u/s 234C of the Income Tax Act, 1961 as the same is not determinable till the final outcome. The management believes that the ultimate outcome of the above proceedings will not have a material adverse effect on the Group's financial position and result of operations.

39 Capital Commitments		(Amount in Rs.)		
	31 March 2020	31 March 2019	1 April 2018	
Capital commitment for purchase of property, plant and equipment and Intangible assets	26,17,000	1,78,29,500	-	
	26,17,000	1,78,29,500	-	

40 Employee Benefits

(A) Defined Contribution Plans

During the year, the Group has recognized the following amounts in the Statement of Profit and Loss

(Amount in Rs.)

	31 March 2020	31 March 2019
Contribution to Provident and other Funds	7,23,47,107	7,34,98,964

2

(B) Defined benefit plans

Gratuity payable to employees

The Group's liabilities under the Payment of Gratuity Act, 1972 are determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method.

The gratuity benefit is provided through unfunded plan and annual contributions are charged to the statement of profit and loss. Under the scheme, the settlement obligation remains with the Company. Company accounts for the liability for future gratuity benefits based on an actuarial valuation. The net present value of the Company's obligation towards the same is actuarially determined based on the projected unit credit method as at the Balance Sheet date.

Discount rate

Discount Rate for this valuation is based on Government bonds having similar term to duration of liabilities. Due to lack of a deep and secondary bond market in India, government bond yields are used to arrive at the discount rate.

Mortality/ disability

If the actual mortality rate in the future turns out to be more or less than expected then it may result in increase/decrease in the liability.

Employee turnover/withdrawal rate

If the actual withdrawal rate in the future turns out to be more or less than expected then it may result in increase/decrease in the liability.

Salary escalation rate

More/Less than expected increase in the future salary levels may result in increase/decrease in the liability.

i) Principal assumptions used for the purposes of the actuarial valuations

	31 March 2020	31 March 2019
Economic Assumptions		
Discount rate (per annum)	5.74%	6.93%
Salary Escalation rate	3.00%	3.00%
Demographic Assumptions		
Mortality	IALM (2012-14) Ultimate	IALM (2006-08) Ultimate
Employee turnover/Withdrawal rate		
(A) Sales Employees		
(i) For service less than 4 years	99%	99%
(ii) Thereafter	2%	2%
(B) Non-sales employees		
(i) For service less than 4 years	49%	49%
(ii) Thereafter	2%	2%
Retirement age	58 years	58 years

ii) Amount recognised in balance sheet

(Amount in Rs.)

	31 March 2020	31 March 2019
Present value of unfunded defined benefit obligation	4,44,39,684	3,14,59,842
Net liability recognized in Balance Sheet	4,44,39,684	3,14,59,842
Current benefit obligation	36,94,254	13,38,726
Non-current obligation	4,07,45,430	3,01,21,116
Net liability recognized in Balance Sheet	4,44,39,684	3,14,59,842

2

iii) Changes in the present value of defined benefit obligation (DBO)			(Amount in Rs.)
	31 March 2020	31 March 2019	
Present value of obligation at the beginning of the year	3,14,59,842	2,80,20,088	
Interest cost on DBO	23,82,181	21,90,647	
Current service cost	71,68,898	62,91,431	
Benefits paid	(94,22,258)	(89,48,561)	
Actuarial (gain)/ loss on obligations			
- Effect of change in Financial Assumptions	47,46,371	7,51,108	
- Experience (gains)/losses	81,04,650	31,55,129	
Present value of obligation at the end of the year	4,44,39,684	3,14,59,842	

The weighted average duration of defined benefit obligation is 3.35 years as at 31 March 2020 (31 March 2019: 3.43 years and 01 April 2018: 3.47 years).

iv) Expense recognized in the Statement of Profit and Loss			(Amount in Rs.)
	31 March 2020	31 March 2019	
Current service cost	71,68,898	62,91,431	
Interest cost	23,82,181	21,90,647	
Total expenses recognized in the Statement Profit and Loss	95,51,079	84,82,078	

v) Expense recognized in the Other comprehensive income (OCI)			(Amount in Rs.)
	31 March 2020	31 March 2019	
Remeasurements due to-			
- Effect of change in financial assumptions	47,46,371	7,51,108	
- Effect of experience adjustments	81,04,650	31,55,129	
Net actuarial (gains) / losses recognised in OCI	1,28,51,021	39,06,237	

vi) A quantitative sensitivity analysis for significant assumption is as shown below:			(Amount in Rs.)
	31 March 2020	31 March 2019	
Impact on defined benefit obligation			
Rate of discounting			
1% increase	(49,42,485)	(34,74,528)	
1% decrease	56,30,351	39,57,054	
Rate of increase in salary			
1% increase	49,41,941	34,33,399	
1% decrease	(43,13,165)	(29,99,020)	
Withdrawal rate			
1% increase	22,63,283	15,87,170	
1% decrease	(19,91,913)	(13,95,774)	

vii) Maturity profile of defined benefit obligation			(Amount in Rs.)
	31 March 2020	31 March 2019	
Within next 12 months	37,98,800	13,84,337	
Between 2 and 5 years	83,58,699	68,27,066	
Between 5 and 10 years	1,42,27,955	1,21,55,718	
Beyond 10 years	6,73,85,057	5,69,07,005	
Total expected payments	9,37,70,511	7,72,74,126	

2

Consolidated Accounting Policies for the year ended 31 March 2020

41 Employee stock option plan

(a) On April 26, 2018, the board of directors approved the Angel Broking Employee Stock Option Plan 2018 (Scheme 2018) for issue of stock options to the key employees and directors of the Group. According to the Scheme 2018, the employee selected by the Nomination and Remuneration Committee from time to time will be entitled to options, subject to satisfaction of the prescribed vesting conditions, viz., continuing employment of 14 months and subject to performance parameters defined in the Scheme 2018. The contractual life (comprising the vesting period and the exercise period) of options granted is 50 months.

(b) Summary of options granted under the scheme

	31 March 2020	31 March 2019
	Number of option	Number of option
Opening balance	25,34,370	-
Granted during the year	-	29,40,870
Exercised during the year	-	-
Forfeited during the year	(2,76,770)	(4,06,500)
Closing balance	22,57,600	25,34,370
Vested and exercisable	1,83,640	-

The weighted average share price at the date of exercise of options exercised during the year ended 31 March 2020 is Rs. 211.51 (31 March 2019: Rs. 211.51)

(c) Expiry date and exercises prices of the share options outstanding

Grant date	Expiry date	Exercise price	Share options as at 31 March 2020	Share options as at 31 March 2019
11 May 2018	11 July 2020	211.51	1,47,990	1,80,560
11 May 2018	11 July 2021	211.51	3,47,920	3,61,120
11 May 2018	11 July 2022	211.51	5,21,880	5,41,680
11 May 2018	11 July 2023	211.51	6,95,840	7,22,240
01 August 2018	01 October 2020	211.51	16,450	34,450
01 August 2018	01 October 2021	211.51	32,900	68,900
01 August 2018	01 October 2022	211.51	49,350	1,03,350
01 August 2018	01 October 2023	211.51	65,800	1,37,800
15 October 2018	15 December 2020	211.51	12,000	15,000
15 October 2018	15 December 2021	211.51	30,000	30,000
15 October 2018	15 December 2022	211.51	45,000	45,000
15 October 2018	15 December 2023	211.51	60,000	60,000
02 November 2018	02 January 2021	211.51	7,200	9,000

43 Segment information

A The Chief Operating Decision Maker (CODM) reviews the operations of the Group in three segment :

- Broking and related services : Broking, advisory, third party product distribution, margin trade facility and other fee based services.
- Finance and Investing Activities : Income from financing and investing activities
- Health and allied fitness activities : Income from fitness center operations

The Group's operating segments are reflected based on principal business activities, the nature of service, the differing risks and returns, the organization structure and the internal financial reporting system. Segment revenue, profit, assets and liabilities have been accounted for on the basis of their relationship to the operating activities of the segment and amounts allocated on a reasonable basis.

Inter segment pricing are at arm's length basis. Profit or loss on inter segment transfer are eliminated at the Group level.

Segment information for secondary segment reporting (by geographical segments)

The Company operates in one geographic segment namely "within India", hence no geographical disclosures are required.

Information about major customers

No customer individually accounted for more than 10% of the revenues in the year ended 31 March 2020 and 31 March 2019.

8

44 Revenue from contracts with customers

The Group has recognised following amounts relating revenue in the statement of profit and loss

(Amount in Rs.)

	31 March 2020	31 March 2019
Total revenue from contract with customers	5,68,99,92,886	5,60,14,16,473

Disaggregation of revenue from contracts with customers

In the following table, revenue is disaggregated by primary geographical market and timing of revenue recognition:

(Amount in Rs.)

	31 March 2020	31 March 2019
Primary geographical market		
Within India	5,68,99,92,886	5,60,14,16,473
Outside India	-	-
Total	5,68,99,92,886	5,60,14,16,473
Timing of revenue recognition		
Services transferred at a point in time	5,43,64,89,921	5,34,41,16,896
Services transferred over a period of time	25,35,02,965	25,72,99,577
Total	5,68,99,92,886	5,60,14,16,473

Contract Balances

(Amount in Rs.)

	31 March 2020	31 March 2019
Trade Receivables	39,02,76,245	2,14,64,36,334

45 Leases

Information about lease

The Group has taken office premises at certain locations on operating lease.

The changes in the carrying value of right of use assets (ROU) for the year ended 31 March 2020 and 31 March 2019 has been disclosed in Note 17.

The aggregate depreciation expense on ROU assets is included under depreciation and amortisation expense in the statement of Profit and Loss.

The movement in lease liabilities has been disclosed in Note 20.

The below table provides the details regarding the contractual maturities of lease liabilities on an undiscounted basis:

(Amount in Rs.)

	As at 31 March 2020	As at 31 March 2019	As at 01 April 2018
Less than one year	8,20,93,800	8,30,04,599	4,16,95,627
One to five years	13,04,84,446	16,99,39,929	9,44,06,119
More than five years	61,54,975	43,67,214	70,91,541
Total	21,87,33,221	25,73,11,742	14,31,93,287

The Group does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Short term and low value lease:

Rental expense incurred and paid for short term leases is Rs. 93,62,573 (31 March 2019: Rs. 1,02,19,096).

Rental expense incurred and paid for Low value leases is Rs. 15,000 (31 March 2019: Rs. 60,000).

The weighted average incremental borrowing rate applied to lease liabilities as at 01 April 2018 is 9.80%.

8

(B) Fair Value hierarchy

The following is the hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets measured at fair value on a recurring basis:

(Amount in Rs.)

	Level 1	Level 2	Level 3	Total
As at 31 March 2019				
Financial assets measured at fair value through profit or loss*				
Investment in equity instruments	350	-	-	350
Investment in mutual funds	14,90,96,276	-	-	14,90,96,276
As at 31 March 2020				
Financial assets measured at fair value through profit or loss*				
Investment in equity instruments	350	-	-	350
Investment in mutual funds	35,26,52,687	-	-	35,26,52,687

The carrying amount of cash and bank balances, trade receivables, loans, trade payables and other receivables and payables are considered to be the same as their fair values. The fair values of borrowings and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including own and counterparty credit risk.

* Valuation techniques used to determine fair value

Specific valuation techniques used to value financial instruments includes investment in equity investment valued at quoted closing price on stock exchange / other basis based on materiality and investment in mutual fund at closing NAV as at reporting period.

47 Financial risk management objectives and policies

The Group is exposed to various financial risks. These risks are categorized into market risk, credit risk and liquidity risk. The Group's risk management is coordinated by the Board of Directors and focuses on securing long term and short term cash flows. The Group does not engage in trading of financial assets for speculative purposes.

(A) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is exposed to interest rate risk arising mainly from borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by maintaining a debt portfolio comprising a mix of fixed and floating rate borrowings.

At the reporting date, the interest profile of the Group's borrowings is as follows:

Interest rate risk exposure

(Amount in Rs.)

	31 March 2020	31 March 2019
Fixed rate borrowings	17,77,26,141	28,36,07,880
Variable rate borrowings	4,73,10,60,836	8,43,45,74,075
Total borrowings	4,90,87,86,977	8,71,81,81,955

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

(Amount in Rs.)

	Increase/ (decrease) in basis points	Effect on profit before tax
31 March 2019		
Rs.	50 bp	(4,21,72,870)
Rs.	(50 bp)	4,21,72,870
31 March 2020		
Rs.	50 bp	(2,36,55,304)
Rs.	(50 bp)	2,36,55,304

2

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. As at each reporting date, the Group does not have exposure in foreign currency, therefore it is not exposed to currency risk.

(B) Credit risk

Credit risk is the risk that the Group will incur a loss because its customers or counterparties fail to discharge their contractual obligation. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, and by monitoring exposures in relations to such limits.

The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented in the financial statements. The Group's major classes of financial assets are cash and cash equivalents, loans, term deposits, trade receivables and security deposits.

Cash and cash equivalents and term deposits with banks are considered to have negligible risk or nil risk, as they are maintained with high rated banks / financial institutions as approved by the Board of directors. Security deposits are kept with stock exchanges for meeting minimum base capital requirements. These deposits do not have any significant credit risk.

The management has established accounts receivable policy under which customer accounts are regularly monitored. The Group has a dedicated risk management team, which monitors the positions, exposures and margins on a continuous basis.

a) Expected credit loss

A) Trade receivables

The Group applies the Ind AS 109 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance (ECL) for all trade receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics as follow:

- Receivable from Brokerage (Secured by collaterals mainly in form of Securities of listed Group)
- Receivable from Exchange (Unsecured)
- Receivable from Depository (Secured by collaterals mainly in form of Securities of listed Group)

Receivable from Exchange (Unsecured): There are no historical loss incurred in respect of Receivable from exchange. Entire exposure/receivable as at each reporting period is received and settled within 7 days from reporting period. Therefore, no ECL is recognised in respect of receivable from exchange.

Receivable from Brokerage and depository: Group has large number of customer base with shared credit risk characteristics. As per risk management policy of the Group, trade receivable to the extent not covered by collateral (i.e. unsecured trade receivable) is considered as default and are fully written off as bad debt against respective trade receivables and the amount of loss is recognised in the Statement of Profit and Loss. Subsequent recoveries of amounts previously written off are credited to the income statement as bad debts recovered. Trade receivable of the Group is of short duration with credit period ranging up to maximum 30 days. In case of delay in collection, the Group has right to charges interest (commonly referred as delayed payment charges) on overdue amount for the overdue period. However, in case of receivable from depository, the Group doesn't have right to charge interest. Though credit period given to customer in respect of receivable from depository is very short, generally there is significant delay in ultimate collection. The Group has computed expected credit loss due to significant delay in collection. Effective interest rate on these trade receivable for the purpose of computing time value loss is considered as incremental borrowing rate.

(Amount in Rs.)

	As at 31 March 2020	As at 31 March 2019
Trade receivable		
Past due 1-30 days	26,38,68,698	1,94,47,38,767
Past due 31-60 days	1,42,60,824	3,39,22,897
Past due 61-90 days	38,47,640	1,80,09,019
Past due more than 90 days	12,15,27,258	16,80,88,570
Loss allowances	(1,32,28,174)	(1,83,22,919)
Net Carrying amount	39,02,76,246	2,14,64,36,334

Movements in the allowances for impairment in respect of trade receivables and loans is as follows:

(Amount in Rs.)

	31 March 2020	31 March 2019
Opening Provision	1,83,22,919	1,64,78,134
Adjustments during the year	(50,94,745)	18,44,785
Closing provision	1,32,28,174	1,83,22,919

B) Loans

i) Loan against Margin Trading facilities:

In accordance with Ind AS 109, the Group applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The expected credit loss is a product of exposure at default (EAD), probability of default (PD) and Loss given default (LGD). The financial assets have been segmented into three stages based on the risk profiles, primarily based on past due.

Group has large number of customer base with shared credit risk characteristics. Loan against margin trading facilities are secured by collaterals. As per policy of the Group, loan against Margin trade facilities to the extent not covered by collateral (i.e. unsecured portion) is considered as default and are fully written off as bad debt against respective loan receivables and the amount of loss is recognised in the Statement of Profit and Loss. Subsequent recoveries of amounts previously written off are credited to the Statement of Profit and Loss as bad debts recovered.

As per Ind AS 109, the maximum period to consider when measuring expected credit losses is the maximum contractual period (including extension options) over which the Group is exposed to credit risk and not a longer period, even if that longer period is consistent with business practice. Therefore, the maximum period to consider when measuring expected credit losses for these loans is the maximum contractual period (i.e. on demand/one day).

For the computation of ECL, the loan against margin trading facilities are classified into three stages as follows:

Following table provides information about exposure to credit risk and ECL on Margin trading facility

Staging as per Ind AS 109	Loan receivable including interest
Stage 1	0 to 30 days past due
Stage 2	31 to 90 days past due
Stage 3	More than 90 days past due

The Group does not have any loan book which may fall under stage 2 or stage 3.

ECL is computed as follow assuming that these loans are fully recalled by the Group at each reporting period:

EAD is considered as loan receivable including interest (net of write off).

PD is considered at 100% for all loans receivables being the likelihood that the borrower would not be able to repay in the very short payment period.

LGD is determined based on fair value of collateral held as at the reporting period. Unsecured portion is considered as LGD.

2

Consolidated Accounting Policies for the year ended 31 March 2020

ii) Loans against securities

In accordance with Ind AS 109, the Group applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The expected credit loss is a product of exposure at default (EAD), probability of default (PD) and Loss given default (LGD). The financial assets have been segmented into three stages based on the risk profiles, primarily based on past due.

Group has large number of customer base with shared credit risk characteristics. Loans against securities are repayable by customer unconditionally in full on demand at the absolute discretion of the Group. Loan against securities are secured by collaterals.

As per Ind AS 109, the maximum period to consider when measuring expected credit losses is the maximum contractual period (including extension options) over which the entity is exposed to credit risk and not a longer period, even if that longer period is consistent with business practice. Therefore, the maximum period to consider when measuring expected credit losses for these loans is the maximum contractual period (i.e. on demand/one day).

For the computation of ECL, the loans against securities are classified into three stages as follows:

Staging as per Ind AS 109	Loan receivable including interest
Stage 1	0 to 30 days past due
Stage 2	31 to 90 days past due
Stage 3	More than 90 days past due

ECL is computed as follow assuming that these loans are fully recalled by the Group at each reporting period:

EAD is considered as loan receivable including interest (net of write off).

PD is considered at 100% for all loans receivables being the likelihood that the borrower would not be able to repay in the very short payment period.

LGD is determined based on fair value of collateral held as at the reporting period. Unsecured portion is considered as LGD.

Interest on Stage 3 assets is recognised based on net carrying amount of financial assets. PD and LGD of 100% is applied on interest recognised on Stage 3 assets.

Default:

The Group writes off financial asset which are 90 days past due, are considered as 'default' unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Write-off policy:

The Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include (i) ceasing enforcement activity and (ii) whether the Group's recovery method is foreclosing on collateral and the value of the collaterals is such that there is no reasonable expectation of recovering in full.

The Group may write-off financial assets that are still subject to enforcement activity. The Group still seeks to recover the amount it is legally owed in full, but which have been partially written off due to no reasonable expectation of full recovery.

Following table provides information about exposure to credit risk and ECL on Loan

(Amount in Rs.)

Stages	As at 31 March 2020	As at 31 March 2019
Stage 1	19,09,97,362	57,01,33,465
Stage 2	26,86,866	7,80,87,713

	Total		31,65,08,746	65,41,817	30,99,66,929	52,59,800

b) Collaterals

The Group holds collateral and other credit enhancements against certain of its credit exposures. The following table sets out the principal types of collateral held against different types of financial assets.

Instrument type	Percentage of exposure that is subject to		Principal type of collateral held
	As at 31 March 2020	As at 31 March 2019	
Loan against securities	98.15%	99.34%	Shares and securities
Loans for Margin trading facility	98.76%	99.51%	Shares and securities

c) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due.

The table below summarizes the maturity profile of the Group's financial liabilities:

	(Amount in Rs.)					
	0 - 1 year	1-2 year	2-3 year	3-4 year	Beyond 4 years	Total
31 March 2019						
Borrowings (Other than lease liability)	8,59,26,46,682	1,94,89,308	1,56,30,852	73,74,799	7,32,900	8,63,58,74,541

(Formerly known as Angel Broking Private Limited)

Consolidated Accounting Policies for the year ended 31 March 2020

54 Subsequent events:

There were no significant events after the end of the reporting period which require any adjustment or disclosure in the financial statements.

53 COVID-19 outbreak was declared a pandemic by the World Health Organization on March 11, 2020. The Indian Government on March 24, 2020, announced a 21-day complete lockdown across the country, to contain the spread of the virus. The lockdown has since been extended with gradual relaxations. Stock Broking services, being part of Capital Market operations have been declared as essential services and accordingly, the Company faced no business interruption on account of the lockdown. There has been no material change in the controls or processes followed in the closing of the financial statements of the Company.

As at March 31, 2020, based on facts and circumstances existing as of that date, the Company does not anticipate any material uncertainties, which affect its liquidity position; and its ability to continue as a going concern. The ongoing COVID-19 situation may result in some changes in the overall economic and market conditions, which may inturn have an impact on the operations of the Company.

55 The financial statements of the Group were authorised for issue in accordance with a resolution of the directors on 14 May 2020
