Stocks Update

Stock: Reliance Ind. **CMP:** ₹1,205 **Target price:** ₹1,412

Reliance Industries Ltd. (RIL) is India's largest company with a dominant presence in Refining, Petrochemicals, Telecom and Retail businesses. Telecom business to witness robust growth over next few years due to tariff hikes and shift of subscribers from Vodafone Idea to other telecom players. Retail business to be a key value driver for Reliance over the long run though there would be some impact on business in FY21 due to the Covid 9 outbreak. Refining and petrochemicals business would be a stable low growth business for RIL going forward but will be a major cash generator for the company as there will be negligible capex requirements. The cash flows would be used to fund expansion into other businesses.

Stock: Alkem Lab. **CMP:** ₹2,687 **Target price:** ₹3,300

67% of revenue comes from domestic generic and API business. Anti-infectives and Chronic business continues to provide revenue growth for Alkem. Expected to outperform the Indian Pharmaceutical market (IPM) by 1.5x growth rate for the next 2 years. We expect Alkem to grow its top line by 13-15% in the upcoming years.

News Analysis

Govt allows imported drugs with residual shelf life of under 60%

With containers stuck in transit for days together, the Indian government has decided to allow some relaxation on the import of drugs. Under the existing rule, imported drugs that have less than 60 per cent shelf life remaining are not allowed into the country. However, given the supply chain disruption this rule has been relaxed by the Central Drugs Standard and Control Organisation (CDSCO).

In a notification dated April 17, the Directorate General of Health Services (DGHS) said that under exceptional conditions the licensing authority may allow import of drugs with lower shelf lives, provided that the expiry date has not been reached.

The lack of truck drivers amid the lockdown has had several thousands of tonnes of cargo, including essentials, stuck at various ports across the country. Reports in the first week of April suggested nearly 40,000 containers were stuck at Chennai and container freight stations (CFS).

India is not a large pharmaceutical formulation importer and depends on China for active pharmaceutical ingredients (APIs) or raw material to make drugs. The DGHS move comes in the wake of the health ministry directive to all departments to take steps to ensure that drugs were available in sufficient quantity in the domestic market. One of the steps taken by the ministry is to issue immediate approvals to applications for registration, import and manufacture of pharmaceuticals.
