Same thing happened with me. I received a whatsapp message from someone saying that they are the assistant HR manager at angel one and got my number through a linkedin application. They said I'd need a demat account to use the application that would be used for the data entry work. I don't know if that is genuine or not.

Same thing happened with me. I received a whatsapp message from someone saying that they are the assistant HR manager at angel one and got my number through a linkedin application. They said I'd need a demat account to use the application that would be used for the data entry work. I don't know if that is genuine or not.

Firstly, our investment programme must use an Advanced Broker Account with Angel One. This is because it is the only way we at Angel One can charge transaction fees.

Secondly, Advanced Broker Account have a different way of depositing funds. This type of 'corporate bank account' facilitates the processing of tax payments and refunds and is an important tool for financial transparency and auditing.

It is regulated by both SEBI and RBI
